<h3 data-start="1330" data-end="1358">Why She Stands Out</h3>
This Lagoon 46 offers a rare combination of charter performance and future flexibility. She is owned and operated by a small company working under a respected Mediterranean charter brand, with current net returns of approximately €100,000 per season. A handover package including company ownership and advance bookings gives a smooth start for new owners — ideal for those seeking strong short-term income with the option to transition to more private use over time.
With all major systems freshly serviced and a comprehensive cruising spec onboard, she's ready to go straight to work — or straight to the islands.
<h3 data-start="1976" data-end="2002">Broker's Remarks</h3>
A smart and capable catamaran that combines excellent earning potential with a proven, well-managed setup. This Lagoon 46 is not just attractively priced — she comes with an active charter calendar, an option to acquire the owning company, and the flexibility to tailor future use as you wish. Strongly suited to non-EU buyers or those looking to offset ownership through professional charter.
