Remarks :

<p>A quick and comfortable bluewater cruiser in true Scandinavian style of craftsmanship and build quality, this Najad 380 is well maintained and has a number of renewals and updates in past few years. Designed to be easily handled by two, this Najad 380 has a large, deep and safe centre cockpit, wide side decks and great accommodation with a comfortable saloon, generous aft cabin and forward double berth cabin. Yanmar 50hp engine, new Saturn Sails in 2023, standing rigging renewed 2020, electric halyard winch, new sprayhood, canopy and winter canopy by Saturn Sails 2022. Part exchange and finance available

Accommodation :

Forward cabin with a double V berth, under berth storage, hanging locker, storage lockers, shelving, opening roof hatch and opening portlights. Small seat to port with storage under the seat.

Door leading through to the saloon with starboard bench settees and L shaped settee to port. Central dining table with drop leaves and storage.

The saloon has good storage, bookshelves, portlights, opening roof hatch, curtains and hatch shade.

Forward facing chart table with seat to starboard and aft of this, door to the heads. Linear galley to port with walkthrough to the aft cabin. This spacious aft cabin has a double berth to starboard and a single berth to port. Storage lockers, hanging locker, opening portlights, opening roof hatch, curtains and blinds.

Central companionway in saloon with access panel to the front of engine. Main access to engine by door in the walkthrough to the aft cabin.

Liferaft out of service November 2024

Further information

Inflatable dinghy and outboard seen on board are not included in the sale

September 2025 boat lifted to the hard standing, hull has been cleaned of the build up of old antifoul. Hull will be epoxied as a preventative measure. Will remain on hard standing for Winter 2025.

Comment

Just three owners, Euroyachts supplied this boat when new

Hull number 39

Najad comment on construction

The hull is hand laid in a sandwich construction of tri-axial rovings with ISO polyester. The surface layer is of NGA gelcoat for maximum protection against water penetration. The hull is white with Carmine red trim line and water lines inlaid in the gelcoat. The hull is topcoated internally. Below the water line the hull is treated with epoxy primer and antifouling.

An integral swimming platform with swimming ladder in the transom.

The internal construction is reinforced with longitudinal stringers and transverse floors. This supports keel fittings, mast pillar, engine frame, tanks and the cabin floor. Additional fore and aft stringers in the hull. All main bulkheads are laminated to the hull. Transverse chain plate fittings are laminated to the hull. The mast pillar is bolted to the floor plate construction.

Internal construction.

Deck and coachroof are built in sandwich construction in glass fire reinforced polyester. Hull and deck are bolt jointed together. Strengthened glass fibre laminate beneath stress areas.

The interior is hand crafted in African Mahogany, hand polished and varnished to a satin finish. Cupboards and doors with profile milled frames. The hull is insulated and lined with Mahogany ribs above the berth bottoms. Cabin soles of varnished teak plywood with holly inlay. Inspection hatches for the bilge and stowage. Headlining of white vinyl covered panels with Mahogany strips.
