Orion 7 with Mercury 150HP Outboard – £78,500 Inc. VAT

Introducing the **Orion 7**, a brand-new RIB designed by renowned British naval architect **Adam Younger**. This cutting-edge model combines **exceptional sea-keeping capabilities** with a sociable deck layout and a host of premium features included as standard — features often considered optional on other RIBs in this size class. Built with quality, performance, and versatility in mind, the Orion 7 is the ultimate choice for adventurers, families, and watersports enthusiasts.

The Orion 7 features a vacuum-infused hull and deck for strength and weight efficiency, and durable CSM (Hypalon) tubes for reliable performance. It is equipped with hydraulic steering for effortless handling and a spacious console with an electric toilet. The helm area includes twin flip-up seats and a glove box with a USB charging socket. Storage space is generous throughout, and premium marine upholstery enhances comfort.

Its integrated fuel system includes a stainless steel fuel tank and a fuel-water separator, ensuring reliable engine operation. The electrical system comes complete with a switch panel, LED navigation lights, all-around light, and an automatic bilge pump. Other onboard conveniences include an acrylic windshield, stainless steel grab handles, a freshwater shower system, swimming platforms with a stainless ladder, a table, telescopic cleats, U-bolts, an Igloo ® marine cooler, and pressure relief valves for optimal performance.

Accommodation :

Inventory :
