## Divers

<p>A NEW WAY OF LIVING AND SAILING ON A CATAMARAN IN OPEN SPACE

Relaxation : vast interior and exterior living spaces

a forward cockpit with dining area and gigantic sunbathing area (20m<sup>2</sup>) in place of the traditional trampoline,  
an aft cockpit with lounge, equipped with LEDs, entirely flush-decked and enhanced by a folding table,  
a sunbathing area on the coachroof.

Comfort : to enjoy the best of sailing

a unique cool feeling in the saloon, due to the large, totally retractable windows  
exceptional light and a panoramic view thanks to the numerous, large openings in the saloon  
a level of equipment to suit the most demanding requirements  
a sleek design and interior décor, arranged for living & #128; & #128; as you would at home.

Practicality : Innovations which leave nothing to chance

A level of self-sufficiency (800 litre water tank combined with a 200 litre / hour engine-driven watermaker, 800 litre fuel capacity, 615 litre American-style fridge/freezer with ice maker and chilled water dispenser. A unique level of autonomy in its class thanks, among other things, to two engine-driven 12 Volt DC generators. The whole controlled via a multiplexing touch screen with integral tutorial.  
As well as all the essential appliances to have aboard, including a 9 place dishwasher, washing machine, espresso machine, etc.

Sailing : CATANA technology, quality and performance

The BALI 4.6 OPEN SPACE is built at our factories in France, using the best possible materials. The choice of a closed-cell PVC foam sandwich and fabrication by infusion ensures rigidity, longevity and weight savings, and as a result, the Bali 4.6 is the lightest in its class. The design and height of the nacelle allows a better passage through the water, giving comfort and safety. With the rig further aft comes the possibility of a larger headsail, and with the self-tacking solent, greater manoeuvrability. Its sail area to light displacement ratio is the highest in its class, giving the performance, safety and sea-keeping quality you would expect from Catana!
