Divers

Elegance, innovation and heritage are brought together in the Oceanis 52, setting new standards in comfort and precision. Designed for discerning sailors, with no concessions, it offers the freedom to explore the world's seas in complete safety and remarkable comfort.

INNOVATION / PASSION

PREMIUM HAS NEVER BEEN SO ACCESSIBLE

The 8th generation of Oceanis is here. Designed for offshore cruising, these new sailboats, embodied by the Oceanis 47 and Oceanis 52, are the perfect combo of performance, comfort, and innovation. Their design is the result of careful consideration of your needs and a meticulous analysis of your requirements on board. The result: A new sailing concept, with optimised comfort and extensive equipment with the standard version.

EXTERIOR DESIGN

You will love the Oceanis 52 for its sleek aft lines and the perfect balance of its elegant silhouette. Its pronounced chine lends it a bold dynamic elegance, while the generously-sized cockpit, made possible by the full beam design extending to the transom, is a hallmark of Biscontini hulls. This unique design results in exceptional living space, with 30% more space than the Oceanis 51.1, setting a new standard for comfort.

The Oceanis 52 cockpit is a blend of ergonomics and fluidity. The twin C-shaped benches create a diamond-shaped space, making it easy to move between the companionway and the lifting swim platform. With two height-adjustable tables, the cockpit is perfect for every moment of your cruise – drinks, meal or sunbathing. A central seating area, fitted with a fridge and a plancha grill, will make every anchorage that bit more special.

Under sail; the aft cockpit becomes an intuitive manoeuvring station with a clear separation between primary and secondary winches, making it easier to keep your lines tidy. The step provides secure access to the gangway. At the helm, the skipper charts his course with precision using a 12-inch display that provides excellent visual comfort in all weather.
