<p>The future of yachting - 5 season journey

Designed from the ground up to be fully autonomous. By being able to produce your own energy and water while making use of coolable food supplies for storage as well as a worldwide internet connection, you have the possibility of creating a fully self-sufficient lifestyle on board.

Rather than a single home port, owners enjoy an ever-evolving journey across the most iconic waters on earth.

Season one launches along the breathtaking Dalmatian Coast of Croatia, followed by the ancient beauty of the Greek Islands, the dramatic cliffs and villages of the Amalfi Coast and Sicily, the legendary coves of Ibiza, Mallorca and Formentera, and culminating on the French Riviera among the glamour of Antibes and Cannes.

Five weeks per year. Five seasons. Five regions.

One ownership position

Full exit strategy

Kite Sail System

Adding the option of a fully automatic towing kite gives the 60 Series the opportunity to make use of the wind without shading the panels. The either 9mÂ² or 12 mÂ² sized kite flies at heights where winds are much stronger, thus being able to create up to 10x more pulling power compared to a conventional sail.

Bridgedeck Storage

Under the bridge deck, there are two spacious storage boxes for SUPs, surfboards, small RIBs or compact sailboats. Both of them can be accessed either from the aft cockpit deck or directly from the hydraulic tender lift.

Owners Suite

Being able to design the 60 Series with an exclusive ownerâ€™s suite on the 3rd deck is unique amongst 60-foot catamarans. The suite itself is fully equipped with an en-suite bathroom and measures 23 mÂ² in size. It also gives direct access to the 36 mÂ² lounge area in the aft.</p>
