Divers

Building on the iconic design of the 80 Sunreef Power, Sunreef NEXT brings transformative yachting innovations that elevate both form and function.

A redesigned aft cockpit features foldout platforms and a hydraulic platform to create a private walkaround beach, an exclusive superyacht touch. The garage remains ready to carry a jet ski and water toys, while improved galley access ensures guest privacy and crew efficiency.

Customization reaches new heights throughout. The flush-design flybridge offers a sleeker aesthetic and more flexible space for freestanding furniture. The master suite is reimagined too, now capable of housing a luxurious bathtub within its expanded footprint.

80 Sunreef power Eco
Do not miss the 80 Sunreef Power Eco, a Sunreef NEXT flagship that offers silent, vibration-free cruising thanks to its cutting-edge solar skin 3.0, lightweight next-generation battery systems, and energy-saving technologies. The future of sustainable luxury yachting has arrived.

Sunreef Next generation
While the Sunreef Power line maintains its elegant DNA, Sunreef NEXT brings it firmly into the future with bold updates. The massive hull volumes continue to allow for nearly limitless interior configurations, from opulent guest suites to private crew zones.
