Broker Remarks
<h2 data-section-id="otsla0" data-start="417" data-end="462">Exceptionally Specified Jeanneau Yacht 54</h2>
Ordered new through Blackrock Yachting, constructed in 2021 and delivered in February 2022, this Jeanneau Yacht 54 represents an exceptional opportunity to acquire one of the finest examples of Philippe Briand's acclaimed performance cruiser currently available. She still remains with her first owner.
Designed for discerning owners seeking genuine offshore capability without compromising comfort, the Yacht 54 combines elegant styling, refined sailing characteristics and practical systems engineering into a yacht equally at home crossing oceans or enjoying relaxed coastal cruising.
This particular yacht was commissioned with an outstanding factory specification and carefully selected options, creating a vessel that comfortably exceeds the specification of most comparable examples. Finished with the highly desirable Flag Blue hull, full teak decks and White Oak interior, she offers timeless styling throughout.
The preferred three-cabin, three-head owner's layout provides exceptional accommodation, centred around a luxurious forward owner's suite with island berth, generous storage and en-suite facilities. Two spacious aft guest cabins each benefit from their own heads compartment, making extended cruising with family or guests effortless.
Above deck, the spacious cockpit has been designed for both entertaining and safe passagemaking. Twin helm stations, powered sail handling systems, electrically folding terrace, hydraulic passerelle, retractable dinghy davits and generous lounging areas create an environment equally suited to marina life and extended cruising.
Under sail she is exceptionally easy to manage. Electric winches, upgraded furling sails, self-tacking staysail, bow and stern thrusters, Raymarine navigation electronics and thoughtful deck layout allow confident handling by a couple whilst retaining impressive sailing performance.
Mechanical specification is equally impressive, featuring the upgraded 110hp Yanmar shaft drive engine, generator, reverse-cycle air conditioning, diesel heating, lithium battery upgrade, inverter and comprehensive electrical systems capable of supporting extended periods away from shore power.
Presented with an outstanding inventory and commissioned to an exceptionally high standard, this Jeanneau Yacht 54 offers a rare opportunity to acquire a beautifully specified owner's yacht without the delay or cost associated with ordering new.
She is ready for immediate cruising. Viewings by appointment only.
