## Divers

The Sensation SX170 is a compact, sporty leisure boat that impresses with its successful combination of performance, design and functionality. With a length of 5.10 metres, this model is ideal for day trips on lakes, rivers or coastal waters - whether for cruising, swimming or spontaneous water sports adventures.

The boat is powered by a reliable Mercury outboard engine with 115 hp, which ensures superior acceleration and an impressively lively driving style. The engine harmonises perfectly with the lightweight, agile hull of the SX170 and gives the boat remarkable agility. The built-in aluminium propeller delivers a robust, durable and efficient power transmission - ideal for recreational captains who value a good balance between performance and economy.

The design of the Sensation SX170 is both modern and sporty. The lines are clear and dynamic, while the well thought-out interior layout makes optimum use of the available space. At the front, an upholstered bench seat in the bow invites you to sunbathe or relax. The cockpit is functional yet comfortable, with a full-length windscreen that protects the driver and co-driver from the wind.

At the helm, the driver can expect clearly arranged instruments and a comfortable steering position with excellent all-round visibility. The seats are ergonomically shaped and offer good support even when travelling at speed.

There is practical storage space under the benches for luggage, life jackets or water sports equipment.

The stern of the boat offers additional space for sitting or for accessing the spacious bathing platform. The integrated stainless steel bathing ladder makes it easy to get into the water - ideal for swimmers or snorkellers.

Thanks to its stable hull design, the Sensation SX170 lies calmly and safely in the water, even in rough water. The high quality of workmanship and the materials used ensure durability and a high-quality appearance throughout.

Whether as a beginner's boat or as a compact fun boat for experienced leisure captains - the Sensation SX170 with 115 hp Mercury engine offers everything you need for relaxed days on the water: reliable technology, agile handling and a sporty, elegant design. An ideal boat for anyone who wants to enjoy freedom on the water in a compact form.

Deck equipment: Bow Cover, Cockpit Cover, Sun canopy (Bimini), Winter tarpaulin, simple plastic version, Audio | TV, Stereo system incl. loudspeakers, Miscellaneous:

Single stainless steel water ski pole
