Remarks :

****** Part exchange considered ******

This particular example is ashore with us in Chichester Marina and can be viewed at a moments notice. She can be commissioned and made ready for the beginning of Spring!

The Jeanneau Cap Camarat 7.5 WA Series 3 is a great alternative to a RIB of similar length because she is more spacious, has a higher freeboard keeping you dry, provides flexible and social space around a table and gives you modest overnight accommodation to make cruising a real possibility. This is an extremely versatile boat that is family friendly with its high guard rails and walk around decks making it safe for all aboard. This model also benefits from having lifting sun beds on the bow, electric windlass, marine toilet complete with holding tank and a cabin for overnighting or sheltering from the weather.

This particular example is well equipped with; a white hull, T-top, Yamaha 300hp upgraded steer by wire engine, bow thruster, swim platforms, cockpit table lux, premier pack, double berth conversion, sea toilet with holding tank, ski arch, LED lights in the cockpit, electric anchor windlass, 2 x fridges, mooring and anchoring kit to name but a few of the options on this boat.

This particular example comes with the full benefit of Jeanneau's 7 year hull warranty and 3 year general fixture and fitting warranty along with Yamaha's 5 year outboard engine warranty.</p><p>Available to be used 6 days a week please call us on 01243 550042 for more information.</p>

Accommodation :

<div> <div> <p>The interior space is accessed via the large sliding perspex, beveled hatch which allows light in even when closed. Down below there is a counter top on the Port side that houses a fresh water tap with stainless steel bowl, beneath which a 40l refrigerator is situated.

On the starboard side there is a separate compartment that provides privacy for the heads compartment that accommodates the marine toilet which is coupled with a holding tank. This particular example also comes with the berth conversion kits that gives a hard backed cushion insert to make the V berth a large to provide a good sized sleeping area.

This space is well ventilated as you have the opening forward facing porthole, this combined with the large sea vision style portholes make some a light and ventilated space.</p><p> </p></div></div><div> </div>

Inventory :

Premiere Pack Level 2025:

Mechanical :

This boat will be rigged with the upgraded Yamaha F300NSB U (300hp) SBW Steer by wire steering system.

Included in the cost we will install a Yamaha Joystick which gives a whole new level of control to precisely maneuver your craft to exactly where and how you want it.

This is Yamaha's latest integrated electric steering system and makes for super tactile and easy controls. This also includes the Yamaha autopilot.

Automatic Zipwake trim tabs have also been spec'd on this boat and are an upgrade from the manual Lenco trim tabs.
