Remarks :

We are delighted to bring to market this truly one off Broom 370. "Necessity" has recently benefitted from a fully bespoke interior fit out by 'Setag' who are considered to be the best in the business. As soon as you step aboard the attention to detail, materials used and level of finish is overwhelmingly apparent.

"Necessity" has been professionally maintained and comes equipped with a very high specification including Twin Volvo Penta D6-330 diesel inboard engines, bow and stern thruster, 4kw generator, Raymarine axiom plotter, Garmin vesper cortex VHF / AIS, pop up Television, LED deck lights and much more.

Broom boats are well renowned for their build quality and the incredible amount of interior accommodation they offer but are often finished to traditional styles and colours. 'Necessity' however, has undergone a complete 'Setag' re-fit and is truly a one in a million boat. From replacement head linings to re-styling of saloon seating to all new carpets and mood lighting she truly has been transformed from a traditional interior into something very contemporary.

Setag is a British yacht refit specialist based in Plymouth and Poole, UK, dedicated to redefining classic yachts through their bespoke refit service. They believe that true luxury lies in a service that allows the customer to commission bespoke products that are tailored to their exact requirements.

As seen on the popular Setag YouTube channel please follow the link below.
