TV antenna : No	Dishwasher : No
SAT-TV : No	TV : No

Various

Remarks :

The Marex 330 Scandinavia PRUDENCE, purchased new by its current owner, is fully equipped with extras and custom features. With a single diesel engine, Volvo Penta D6 440, it offers extended range and flexibility to explore the Scottish west coast and islands, ensuring comfort and elegance for adventurous cruising.

Marex, the Norwegian boat manufacturer, is celebrated for its high-quality cabin cruisers, blending safety, practicality, and elegant craftsmanship for all-weather cruising. The Marex 330 Scandinavia epitomises versatility and innovation, featuring two spacious cabins, a well-designed galley, and a separate bathroom with a shower. Advanced features like sliding doors, a canopy system, and convertible seating make it ideal for various social settings. Thoughtful touches, including fender storage and solar panel options, enhance its functionality.

Accommodation :

With room for up to six people to sleep on board, the 330's accommodations are best suited for couples or small families on extended trips or four adults on weekend getaways.

The dinette area cleverly doubles as additional sleeping quarters, thanks to its hi-lo table that transforms into a berth. The pop-out stool and a convertible two-way backrest for the navigation seating reflect an intelligent use of space.

The bathroom on the starboard side is a highlight. It features a separate shower cubicle with a rotating screen and plenty of storage. This layout prioritises comfort and convenience, which is essential for couples or families using the boat.

In the sleeping accommodations, thoughtful design maximises space within the boat's size constraints. The guest cabin below deck offers a wide double bed and ample drawer and hanging storage. Standing space is limited to the entrance. It's a practical and cosy retreat.

Moving forward, the master cabin showcases a large berth. Natural light floods through hull windows and an overhead hatch, creating a bright and inviting atmosphere. There is plenty of storage, with a hanging locker and a spacious drawer integrated into the bed's base.

Inventory :

Electronic & navigation

Raymarine Axiom 16" Pro-S Plotter/GPS

Navionics UK chart

Raymarine echo/depth transducer

Raymarine Ray91 VHF radio with AIS

Audio pack - DAB module for radio - Fusion & MS-RA670

Mechanical :

Engine type: Volvo Penta D6-440A-G - Diesel Aquamatic with DPI sterndrive
Low engine hours: 71 hrs
The engine and sterndrive are scheduled to be serviced in April 2025, all paid by the current owner.
Volvo Penta active corrosion protection
Volvo Penta EasyConnect interface

Automatic fire extinguisher in the engine room

The D6 440hp sterndrive delivers both performance and exceptional fuel economy, consuming only 3 litres per mile even at 33 knots. Moreover, it achieves peak efficiency between 25 and 30 knots, making it a superb match for those who desire both speed and practicality. The single sterndrive setup offers substantial advantages, including reduced

maintenance requirements and increased engine room space.</p>
