

Ultra Phantom - 1988

<https://www.yachtadvert.com/1463-versilcraft-ultra-phantom.html>

125 000 EUR incl vat

General

Year : 1988

Length : 255.91 Ft

Draft : 0.00 Ft

Area : Toscana, Italy, Italy

Builder : Versilcraft

Material : Wood

Beam : 65.62 Ft

Life Raft : No

Leasing in progress : No

Engines

Fuel : Diesel

Power Unit. (HP) : 590

Engine Brand : Detroit Diesel

Engine(s) : 3

Facilities

Flybridge : No

Helm : No

Electronics

Autopilot : No

GPS : No

VHF : No

Watermaker : No

Radar : No

Sounder : No

Chartplotter : No

Converter 12/220 : No

Bridge equipment

Hydrolic Gangway : No

Bath platform : No

Winter cover : No

Sprayhood : No

Teak cockpit : No

Furling mainsail : No

Gangway : No

Davits : No

Electric windlass : No

Cockpit awning : No

Teak deck : No

Furling genoa : No

Spinnaker : No

Main equipment

Stern thruster : No

AC : No

Black Water : No

Tender : No

Bow Thruster : No

Marine Generator : No

Hot water : No

Flaps : No

Tender Engine : No

data-start="935" data-end="980">Engine Configuration & Technical Systems:</p><p data-start="982" data-end="1165">This Versilcraft Ultra Phantom is powered by

three robust Detroit Diesel 590 HP engines (total 1,770 HP), coupled to shaft-driven propulsion for optimal reliability and performance.

The vessel is equipped with a hydraulic steering system and is supported by a comprehensive Victron Quattro 8000 electronic control and inverter system.

Additional technical equipment includes:

- Twin 20 kW generators (Klorer and Onna),
- Desalinator producing 100 L/hour,
- 10 bilge pumps + 1 centralized, plus gasoline-powered pump,
- Fuel reserve tank with 100 L of fresh oil and another 100 L antifreeze tank with distribution pump,
- Dual 19" plotters, AIS, GPS, radar (Raymarine), and autopilot

At a cruising speed of approximately 10–12 knots, fuel consumption is between 40 and 50 litres per engine per hour. The generator, a Kohler model, consumes 1.8 litres per hour. The watermaker produces 100 litres of fresh water per hour.

A robust and efficient mechanical setup, ideal for extended cruising and onboard autonomy.
