Remarks :

A Statement of British Luxury and Performance

The 2013 Princess 98 Motor Yacht stands as a testament to Princess Yachts' commitment to blending sophisticated British craftsmanship with impressive performance and expansive luxury. As a flagship model in its class, the 98 offers a compelling package for owners seeking a substantial, stylish, and highly capable vessel for extended cruising and lavish entertaining.

Design and Exterior Presence:

From the moment you set eyes on the Princess 98, her commanding presence is undeniable. Her sleek, flowing lines and well-proportioned profile exude a timeless elegance that remains relevant even today. The exterior spaces are meticulously designed for enjoyment and entertaining. The vast flybridge is a highlight, offering ample space for lounging, dining, and sunbathing, often featuring an optional hardtop with an integrated sunroof for versatility. The foredeck provides another inviting social zone with comfortable seating and sunpads, perfect for enjoying a quiet moment or an aperitif at anchor. A large transom garage and an electro-hydraulic bathing platform underscore her watersports capabilities, easily accommodating a tender, jet skis, and serving as a submerged swimming platform.

Performance and Engineering:

Beneath her elegant exterior, the 2013 Princess 98 is a serious performer. Powered by twin MTU 16V 2000 M84 engines (each around 2,217hp), she delivers an exhilarating top speed of approximately 23 knots, with a comfortable cruising speed of 18 knots. This planing hull design, combined with robust GRP construction, ensures a smooth and stable ride, even in choppier conditions. The inclusion of fin stabilizers significantly enhances comfort both underway and at anchor, minimizing roll. Her substantial fuel capacity (around 11,000 liters) provides a respectable range for long-distance cruising, making her suitable for exploring diverse coastlines.

Interior Luxury and Accommodation:

Stepping inside the Princess 98, you are immediately enveloped in an atmosphere of refined luxury. The interior design, often showcasing a collaboration with high-end design houses like Fendi Casa (on some early models), features exquisite materials, bespoke furniture, and meticulous detailing. Panoramic windows flood the saloon and dining areas with natural light, offering breath-taking views from every vantage point and creating an open, airy ambiance.

Accommodation is configured for 9 guests across 4 sumptuously appointed cabins. The full-beam master suite, located amidships on the lower deck, is a private sanctuary, boasting generous space, large hull windows, and a luxurious en-suite bathroom. A VIP cabin forward and additional double and twin cabins ensure all guests are accommodated in utmost comfort, each with their own en-suite facilities. Separate crew quarters for 5 crew, are well-designed to ensure privacy and efficient service.

The galley is fully equipped with high-end appliances, and the yacht often includes amenities such as a central vacuum system, watermaker, and comprehensive audio-visual entertainment systems throughout.

Overall Impression:

The 2013 Princess 98 Motor Yacht is a magnificent vessel that continues to impress with its blend of performance, luxury, and timeless design. She is a true superyacht in her class, offering an exceptional platform for discerning owners who prioritize both exhilarating experiences on the water and unparalleled comfort and style for their guests.
