Remarks :

We are pleased to bring to market this 2023 Nordkapp Airborne 8 to market. She is the ultimate RIB for those who demand thrilling performance, Scandinavian build quality and onboard luxury. Equipped with a bow thruster, fridge, toilet, freshwater shower, bimini, stainless-steel anchor system and the superior Mercury Verado 350hp V10 outboard engine! She's ready for her next adventure whether it's extended cruising or watersports fun.

Engineered with a sharp deep V hull and Nordic hydrodynamics, the Airborne 8 combines sporty responsiveness with exceptional

stability. Thanks to the hypalon tubes that barely touch the water, this design reduces drag, lowers fuel consumption, and channels G forces downward rather than sideways—delivering smoother high speed turns and superior comfort in choppy seas.

With a 350HP Mercury outboard, this RIB reaches cruising speeds over 30 knots and top speeds exceeding 50 knots, while also offering long range capabilities and refined fuel efficiency.

 She is currently here to view in Chichester marina 6 days a week.

Please call us on 01243 550042 for more information.

Accommodation :

Accommodation:

Marine toilet

Fridge

Freshwater shower

Inventory :

Inventory:

High, aerodynamic console with excellent visibility, discreet instrument layout, and easy access to chartplotters, bow-thruster controls, and Mercury Active Trim

Spacious deck with thoughtful walkaround layout, large bow and stern lockers, and easily accessible cockpit systems

Bow anchor step, side wings, and wide swim platforms give effortless boarding and water access

Options like sprayhood/canopy, large sunbed in bow, and configurable seating (shock absorbing “Fiji” seats or bench style) make life onboard flexible and luxurious

Air Compressor – For inflating toys or emergency re-pressurising afloat
Fridge – Stow food and drinks chilled at sea
Toilet (marine head) – Added convenience on extended outings
Freshwater Shower – Rinse off saltwater or clean gear in comfort
Stainless-Steel Anchor && Chain – Robust, corrosion-resistant ground tackle
