XBOAT ref :6203.

launched in 2004 by the Polish shipyard of the same name, the Delphia 29 achieved considerable success in the 9-meter segment, primarily due to its comfort. Designer Andrzej Skrzat aimed to increase the hull volume and raise the coach roof to create more space, both inside and out. Built in monolithic fiberglass, it features an Airex sandwich deck and structural bulkheads for added rigidity. Under sail, it is easy to handle and proves well-balanced, performing even in light winds. Below deck, there are two double cabins, a spacious saloon with a headroom of 1.85 meters featuring side-by-side settees, a galley, and a bathroom More details and pictures on [xboat.uk](http://xboat.uk)
