Hellwig V505 Turbo Jet now in the online auction. everyone can bid until 15 December 2025.

Hellwig V505 Turbo Jet €#147; Sporty Jet Boat with Extensive Equipment

General Features

The Hellwig V505 Turbo Jet is a sporty and compact jet boat with a length of 5.40 meters and a width of 1.99 meters. This boat was built in 2014 and is made of polyester, which contributes to a relatively low weight and easy maintenance. The hull features a V-bottom, providing stable positioning in the water and good sailing characteristics at higher speeds. The draft is 30 centimeters, making the boat suitable for shallower waters such as rivers, lakes, and canals.

The Hellwig V505 is equipped with a steering wheel and has a single inboard engine. The boat was last taken out of the water for maintenance in 2025.

Hellwig V505 Turbo Jet now in the online auction. Everyone can bid until December 15, 2025.

Engine and Performance

The Hellwig V505 Turbo Jet is equipped with a Weber MPE 750 inboard engine. This engine delivers a power of 143 hp and is electrically started. Weber is known for its jet-powered engines, often used in sporty vessels due to their direct acceleration and maneuverability. The engine is from the same year as the boat, namely 2014, and runs on gasoline.

The engine features an original flush system, allowing the cooling system to be easily flushed after use in salt or polluted water. This helps preserve the engine and extends the lifespan of the drive system.

Navigation and Electrical Systems

Aboard the Hellwig V505 Turbo Jet, there is a wide range of navigation equipment. The boat is equipped with an AIS system, depth meter, fishfinder, GPS, chart plotter, compass, log/speedometer, and a wind meter. This equipment allows for both recreational and sporty sailing with a high degree of control and insight into the sailing conditions.

In terms of electricity, the boat is equipped with a battery charger, alternator, inverter, voltmeter, and shore power connection. The electrical installation operates on both 12V and 220V, allowing the use of various equipment on board, both while sailing and when connected to shore power in the harbor.

Comfort and Deck Equipment

The exterior equipment of the Hellwig V505 is focused on comfort and ease of use. The boat features a bimini, sprayhood, exterior deck sails, cockpit table, cockpit tent, fenders, and lines. The deck is finished with teak, providing a classic appearance and extra grip in wet conditions. The guardrail contributes to safety on board, while the swim platform and swim ladder facilitate getting in and out of the water.

For anchoring, the boat is equipped with an electrically operated anchor winch with line attachment. This allows for quick and easy anchoring at desired locations. The electric bilge pump ensures automatic drainage of any water that may have entered.

Other Details

The Hellwig V505 Turbo Jet comes with various deck covers, including a winter cover and a full convertible top. These accessories offer protection against weather influences and contribute to the preservation of the boat. No trailer is included with this boat.

According to the owner's description, this Hellwig comes from a passionate water sports enthusiast and is equipped with an extensive set of equipment. The combination of a powerful jet engine, extensive navigation, and comfortable equipment makes this model suitable for various sailing areas within Europe, including rivers, lakes, and canals.

Conclusion

The Hellwig V505 Turbo Jet from 2014 is a polyester jet boat with a sporty character and extensive equipment. The boat is equipped with a powerful Weber inboard engine, modern navigation equipment, and various comfort-enhancing elements on deck. Thanks to the shallow draft and compact size, this boat is suitable for a wide range of sailing conditions. The presence of a flush system, electric anchor winch, and extensive electrical installation makes this model interesting for water sports enthusiasts looking for a maneuverable and fully equipped jet boat.
