<p>EXTERIOR

VPLP designâ€™s office accomplished the perfect balance between the different living spaces.

The 46 combines modular front and aft cockpits, a complete cooking area at the back, a practical and safe access to the sea, still giving Nauta Design large volumes in the salon to fully express themselves.

With its double access, the Flybridge is dedicated both to manoeuvring and relaxing. The centred helm station offers protection and visibility. For even more comfort, different solar protections are possible: a folding cabriolet or a rigid Bimini.

On catamarans of this size, the dinghy hoist system is usually a simple offer. On this 46 it is possible to choose either a classic stainless steel davits or an electrical hydraulic platform. This last option offers an easier access to the water while offering a new living space at the back of the boat.</p>
