IceMaker : No
Oven : No
Gas stove : No
Heater : No
Dishwasher : No
TV : No

Various

The new Lagoon 47 is based on numerous ideas and requests from customer and dealer feedback â€“ and combines tried-and-tested Lagoon DNA with fresh innovations. The Lagoon 47 will make its world debut at the Cannes Yachting Festival in September 2026.
The Lagoon 47 combines well-thought-out functionality with a noticeably higher level of comfort â€“ creating a lifestyle on board that feels both relaxed and luxurious.

A particular highlight is the direct access from the saloon to the forward cockpit. It connects the outdoor areas in a natural way and opens up new possibilities for enjoying life on deck. The spacious forward cockpit, complete with a table and ergonomic bench seats, thus becomes a fully-fledged additional living area with a special atmosphere.

The Lagoon 47 also demonstrates its modern and comfort-oriented design in its handling: the optional electric tender lift makes handling the dinghy considerably easier and also serves as a spacious bathing platform. The flybridge with side helm station also ensures short distances and direct communication with the cockpit â€“ ideal for relaxed and safe manoeuvring.

Glass door to forward cockpit
Direct access to the forward cockpit: Through a door in the saloon, creating a better connection between indoor and outdoor spaces.

Communication between helm and cockpit
Flybridge with side helm station: Allows direct communication between helm and cockpit.

Utility room in the ownerâ€™s version
Utility room in the ownerâ€™s version (optional): Practical storage and functionality for longer stays on board.
