A superyacht can be recognised by the dimension of its spaces. Space is synonymous with luxury and wealth. For our interior designer, Massimo Gino, a superyacht is a boat in which no compromise is necessary. Compromises disappear as you appropriate the space and you feel free to enjoy it as you wish.

We sought to create harmony between the interior and exterior. Thus, spaces merge, not only in style but also through circulation and the use of the volumes. The general grid is somehow a â€˜â€˜blank canvasâ€™â€™ that enables us to give each space a different function according to the customerâ€™s requirements.
