## Various

Motorboat 1200 now in the online auction. everyone can bid until 19 January 2026.

### Motorboat 1200 &#128;#147; Steel Motorboat with Spacious Layout and Diesel Engine

The Motorboat 1200 is a steel motorboat from 1969 with a length of 12.50 meters and a width of 3.20 meters. This hard-chine hull offers stable positioning in the water and is suitable for various inland waters such as canals, lakes, and rivers. The boat is equipped with an inboard diesel engine from the brand Perkins, type 4.270, with a power of 90 hp. This four-cylinder engine is electrically started and dates from the 1990s. The cruising speed is approximately 15 kilometers per hour, making the boat suitable for leisurely trips and recreational use.

Motorboat 1200 now in the online auction. Everyone can bid until January 19, 2026.

### Construction and Dimensions

The hull of the Motorboat 1200 is made of steel, contributing to the vessel's robustness. The draft is 85 centimeters, making the boat suitable for shallower waters. The clearance height is approximately 2.50 meters, allowing the boat to pass under most bridges. Inside, there is a standing height of about 1.90 meters, providing sufficient freedom of movement in the interior.

### Interior and Sleeping Arrangements

The layout of the boat is focused on comfort and functionality. There is a separate bedroom with two fixed berths. Additionally, the dinette can be converted into two extra berths, bringing the total to four. The kitchen is equipped with a two-burner gas stove and a refrigerator. There are two gas bottles available, one in use and one empty. The toilet area is equipped with a manual toilet that discharges directly into open water.

### Electrical Installation and Energy Supply

The electrical installation consists of three batteries with a total capacity of more than 400 Ah. The onboard voltage is 12V and 220V. For energy supply, there are two solar panels with a combined power of approximately 400 watts. Additionally, there is a battery charger, a 2500W inverter, and a shore power connection. The onboard instruments include a fuel tank gauge, oil pressure gauge, temperature gauge, and tachometer. The oil gauge is currently not optimally connected.

### Steering and Sailing Characteristics

The Motorboat 1200 features dual steering positions, meaning the boat can be controlled both from inside and outside. Steering is done via a steering wheel, and there is one rudder. The boat is maneuverable and offers a smooth ride, contributing to comfort during longer trips or when maneuvering in narrow waters.

### Equipment and Extras

On deck, the boat is equipped with various equipment elements such as a manual anchor winch, two anchors with chain and line, davits, fenders, lines, a guardrail, a swim platform, and a swim ladder. There is a small tender available, a rowing boat mainly used for maintenance work. For safety, there is a lifebuoy, fire extinguisher, smoke detector, CO2 detector, and an electric bilge pump on board.

### Maintenance and Condition

The boat was last taken out of the water in 2021, when antifouling was also applied. There are some known points of attention, such as leakage along two windows during rainfall and some unfinished finishing. Documentation of the boat is available and will be provided upon sale.

### Usage and History

The current owner took over the boat from a family who built the superstructure themselves. The boat has been used for various purposes such as day trips, vacations, weekend stays, and even as temporary living quarters. The spacious layout and stable sailing characteristics make the Motorboat 1200 suitable for various forms of pleasure boating.

### Summary

The Motorboat 1200 is a steel motorboat with a classic appearance and functional layout. With a reliable diesel engine, spacious living area, and various onboard facilities, this boat offers opportunities for recreational use on inland waters. The combination of practical equipment, dual steering, and a robust construction makes this vessel suitable for both short trips and longer stays on board.
