Aquanaut Cruiser 1035 OK AK now in the online auction. everyone can bid until 20 April 2026.

Aquanaut Cruiser 1035 OK AK Comfortable Steel Motorboat with Character

The Aquanaut Cruiser 1035 OK AK is a steel motor yacht with a classic appearance and functional design, built by the renowned Aquanaut shipyard in Sneek. This 1979 vessel combines solid Dutch shipbuilding with comfortable equipment and is extremely suitable for longer stays on board, vacations on inland waters, and relaxing weekend trips. With a length of 10.35 meters and a width of 3.35 meters, this cruiser offers a spacious interior and stable sailing behavior.

Aquanaut Cruiser 1035 OK AK now in the online auction. Everyone can bid until April 20, 2026.

Spacious Layout and Comfortable Living Space

Inside the Aquanaut Cruiser 1035 OK AK, there is a thoughtful layout with a cozy salon, a dining area, a galley, and sleeping accommodations for four fixed and two additional persons. The headroom of 1.90 meters ensures that even taller passengers can move comfortably. In 2019, the interior was completely renewed, featuring warm mahogany paneling, new PVC floors, fresh curtains, and comfortable mattresses and upholstery. These updates give the ship a contemporary look while preserving the character of the original build.

The galley is equipped with a stove and a refrigerator, making self-sufficient living on board quite feasible. The electric toilet and hot air heating contribute to comfort, even on cooler days. The presence of a dining area completes the interior, making it suitable for cozy meals or games on board.

Performance and Sailing Characteristics

The Aquanaut is equipped with a Craftsman CM4.52/S4L2-T diesel engine with 52 hp, installed in 2019. This four-cylinder engine has only 260 running hours and offers quiet and efficient propulsion. Thanks to sound insulation, engine noise is limited, contributing to a relaxing sailing experience. The hull with a chine shape ensures stable positioning in the water, which is a great advantage, especially on inland waters. The maximum speed is approximately 15 km/h, ideal for touring and leisurely cruising.

The steering is done from the inside steering position with a steering wheel, making the ship suitable for all weather conditions. In 2023, a stern thruster was added, which, together with the electric bow thruster, significantly eases maneuvering in harbors and locks.

Technical Equipment and Power Supply

The electrical installation is complete and tailored for comfortable living on board. There are three batteries with a total capacity of 360 Ah, renewed in 2024. The power supply is supported by a battery charger, alternator, inverter, shore power connection, and a solar panel. This makes the ship suitable for longer trips without direct shore power supply.

The navigation equipment consists of a depth meter and a VHF radio, contributing to safe sailing. The onboard instruments provide insight into fuel level, oil pressure, engine temperature, and RPM.

Outdoor Space and Equipment

On deck, the Aquanaut is equipped with a sprayhood, outdoor deck with cushions, swim ladder, and swim platform. The guardrail provides extra safety on deck. For anchoring, an anchor with a line is available. In 2023, a custom-made winter cover was added, including a sturdy frame, protecting the ship during the winter months.

The propeller shaft and propeller were renewed in 2024, contributing to the sailing efficiency and durability of the ship. Also, all batteries were replaced in the same year, enhancing electrical reliability.

Versatile and Suitable for Various Sailing Areas

This Aquanaut Cruiser is ideally suited for use on inland waters, such as lakes, rivers, and canals. Thanks to the clearance height of 2.30 meters, routes with low bridges are also easily navigable. The sailing experience is characterized by tranquility, stability, and comfort, making the ship attractive for families, couples, or solo sailing enthusiasts looking for a classic motor yacht with modern amenities.

With its combination of space, equipment, and sailing characteristics, this Aquanaut Cruiser 1035 OK AK offers a solid foundation for many years of sailing pleasure. A characterful ship with a warm appearance and

practical layout, ready for new adventures on the water.</p></p>
