Remarks :
The 2026 Jeanneau Cap Camarat 6.5 WA Series 3 is a beautifully balanced walk-around powerboat that blends sporty performance, stylish design and everyday comfort into one versatile package. Crafted by Jeanneau with a modern hull designed by Michael Peters and refined lines inspired by larger models, this 6.5 m cruiser delivers confident handling and excellent seakeeping whether you’re exploring coastal waters, heading out for a day of watersports or enjoying a weekend escape. At the heart of its appeal is a thoughtful layout that makes the most of every metre onboard. The recessed forward deck invites relaxed sunbathing, while the U-shaped cockpit seating easily converts into a spacious sundeck or dining area — ideal for socialising at anchor or underway. Wide swim platforms provide effortless access to the water for swimming, diving, or boarding a tender. Below deck, a well-appointed cabin awaits with generous headroom and a welcoming double berth formed from two single berths, making overnight stays truly comfortable for couples or small families. Practical touches like ample storage, optional toilet facilities, and thoughtful ergonomics contribute to a pleasurable onboard experience. Powered typically by the reliable Yamaha F150hp outboard engine, the Cap Camarat 6.5 WA Series 3 strikes an appealing balance of spirited cruising performance with good fuel efficiency. With room for up to eight people and features that support both leisure and sport, it’s equally suited to coastal cruising, fishing, days at sea with friends, or simply soaking up the sunshine on tranquil waters.

Most additional options can be seamlessly added or / and amended if required. The price includes VAT, delivery and commissioning in the UK. Also available for export - price on application and part exchanges considered.

This particular example comes with the full benefit of Jeanneau's 7 year hull warranty and 3 year general fixture and fitting warranty along with Yamaha's 5 year outboard engine warranty.
