<p>Tjeukemeer 950 AK now in the online auction. everyone can bid until 16 March 2026.

<h2>Tjeukemeer Cruiser 950 AK â#128;“ Comfortable Steel Motorboat with Classic Appeal</h2><p>The Tjeukemeer Cruiser 950 AK is a steel motorboat with a length of 9.50 meters and a width of 2.90 meters. Thanks to its shallow draft of 65 cm and an air draft of approximately 2 meters, this cruiser is perfectly suited for trips on inland waters, lakes, and rivers. The boat combines a classic appearance with practical sailing characteristics and comfortable equipment, making it attractive for both day trips and multi-day stays on board.</p><h3>Tjeukemeer Cruiser 950 AK now in the online auction. Everyone can bid until March 16, 2026.</h3><h3>Layout and Interior</h3><p>Inside, the Tjeukemeer 950 AK offers a cozy and functional living space. The salon features a dining area that can easily be converted into an additional sleeping place, providing a total of four berths. The aft cabin contains two fixed berths, suitable for people of average height. The headroom of 1.95 meters contributes to the comfort on board, even for taller passengers.</p><p>The kitchen is equipped with a Dometic refrigerator, a 2-burner stove using gas canisters, and ample storage space. For extra comfort, there is an electric toilet system that does not discharge directly into open water. The onboard heater ensures a pleasant temperature during cooler days, making stays on board enjoyable even in spring and autumn.</p><h3>Engine and Sailing Characteristics</h3><p>The boat is powered by a Peugeot inboard diesel engine with 50 hp and four cylinders. The engine is electrically started and offers a cruising speed of approximately 9 km/h, with a top speed of about 13 km/h. Thanks to the electric bow thruster and two additional propellers on the swim platform, the boat is easy to maneuver, even in tight harbors or when docking.</p><p>The hull has a V-bottom, contributing to a stable and smooth ride. Steering is done from the inside helm via a steering wheel, ensuring comfortable operation regardless of weather conditions.</p><h3>Electrical Installation and Power Supply</h3><p>The electrical installation on board has been recently updated. The shore power system (230V) is equipped with a circuit breaker and grounding separator, ensuring safe use of electricity on board. The 12V circuit has also been updated and includes a new switch panel, a radio, and a Thomson television.</p><p>A 300-watt solar panel on the roof supplies power to the batteries via a Victron solar controller. The boat has a 100 Ah starter battery and a 240 Ah service battery, both relatively recently installed. This configuration allows for extended independent sailing without direct connection to shore power.</p><h3>Equipment and Extras</h3><p>On deck, the boat is equipped with a stainless steel anchor with chain, fenders and lines, a swim platform, and a large winter cover that covers the entire boat. The canopy has been recently renewed and contributes to the well-maintained appearance of the ship. Navigation equipment such as a depth sounder and fishfinder are present, facilitating navigation on unfamiliar waters.</p><p>The boat is equipped with a lifebuoy and has a deck cover for extra protection.Â </p><h3>Suitable for Various Sailing Activities</h3><p>The Tjeukemeer Cruiser 950 AK is suitable for a variety of purposes, from relaxing day trips to multi-day vacations. Thanks to the spacious layout and comfortable interior, it is possible to stay on board with multiple people. The boat is also suitable for fishing enthusiasts, with ample deck space and a stable position on the water.</p><p>For those looking for a characterful steel cruiser with practical equipment and comfortable sailing characteristics, this Tjeukemeer 950 AK offers an interesting option.</p></p>
