**Remarks :**

Contact us for –

- The detailed specification of this exceptional yacht.
- The full 40 minute tour of the yacht.

The 2025 Sargo 45 represents the pinnacle of the "All-Season SUV" category. Built in Kokkola, Finland, this flagship model is designed for the discerning owner who demands offshore capability without sacrificing the comforts of a luxury cruiser. In the **Owner Version** configuration, Sargo focuses on volume, privacy, and long-range liveability.

**Performance & Engineering:** The **IPS Advantage**

Pairing the Sargo 45 with **twin Volvo Penta IPS 650 (480 hp each)** transforms a rugged explorer into a precision-handling machine. While the standard sterndrive version is excellent, the IPS pods offer several key advantages for the 2025 model:

- Joystick Maneuverability:** Docking a 14.6-meter boat becomes effortless, even in tight marinas or crosswinds.
- Efficiency:** The forward-facing props provide roughly **20% better fuel efficiency** at cruise speeds compared to traditional shafts.
- Station Keeping:** The inclusion of Volvo’s Dynamic Positioning System (DPS) allows the boat to hold its heading and position at the touch of a button—perfect for waiting for bridge openings or prepping fenders.

**Exterior & Deck: Safety Meets Social**

Sargo’s signature **walk-around deck** remains the gold standard for safety. Deep bulwarks and high stainless steel rails (often powder-coated black in the Explorer trim) ensure that moving from the cockpit to the bow is secure for all ages, regardless of sea state.

- Social Spaces:** The 2025 model features a large U-shaped sofa on the bow and a spacious aft cockpit with an optional wet bar/grill setup.
- Side Doors:** Two massive sliding side doors provide the helmsman with immediate access to the side decks, making single-handed docking a reality.
- Aft Glass:** The wheelhouse features a sliding glass door and an opening rear window, seamlessly connecting the interior saloon with the aft deck.

**Interior: The "Owner Version" Luxury**

The **Owner Version** is specifically tailored for those who prioritize spacious accommodations over maximum berth count. By opting for the two-cabin layout, the Sargo 45 gains significant storage and a more open feel.

- Master Cabin (Forward):** A palatial island double berth with a dedicated ensuite head and separate shower stall. Natural light pours in through large hull portlights and a flush deck hatch.
- Aft Cabin:** This isn't a "crawl-in" guest space. It features two single berths that easily convert to a massive double, plus its own ensuite head.
- The Saloon:** The 2025 interior uses "Scandinavian Technical Teak" giving it a bright, modern feel. The helm is a "Glass Bridge" masterpiece, featuring twin 22-inch Garmin displays integrated with Volvo Penta’s Easy Connect.
- Ventilation:** A massive electric GRP sunroof allows you to open the entire saloon to the elements on summer days, while the insulated hull and webasto heating keep it silent and warm in sub-zero conditions.

**Broker’s Verdict**

The Sargo 45 Owner Version is not for the "fair-weather" boater. It is for the owner who wants to extend their season into the shoulder months without compromising on luxury. It lacks the "plastic" feel of mass-produced Mediterranean cruisers, replacing it with heavy-duty hardware, silent acoustics, and a hull that eats 3-foot chop for breakfast.

If you want a boat that is as easy to dock as a 30-footer but has the legs for a cross-channel or coastal expedition in total comfort, the 2025 Sargo 45 IPS is currently without peer in its class.
