Seabreacher X now in the online auction. everyone can bid until 20 April 2026.

Seabreacher X 2018 – Unique Semi-Submersible Water Experience with Powerful Performance

The 2018 Seabreacher X offers an unparalleled combination of speed, agility, and visual impact.

This innovative vessel is designed for adventurous water sports enthusiasts and commercial operators seeking a spectacular and distinctive experience on the water. With its striking design, powerful engine, and unique sailing characteristics, this Seabreacher is a head-turner on any body of water.

Seabreacher X now in the online auction. Everyone can bid until April 20, 2026.

Innovative Design and Striking Finish

The Seabreacher X is constructed from high-quality polyester and finished in a striking green metallic flake paint that sparkles in the sunlight and immediately draws attention. The interior is stylishly executed in a chic tan color, providing a luxurious appearance and comfortable seating for the occupants. The combination of the streamlined design and high-quality finish makes this Seabreacher a visual spectacle, both above and below water.

Powerful Engine and Impressive Performance

Onboard is a BRP 1630 ACE inboard engine, sourced from a Sea-Doo jet ski, with a power output of 300 hp. This three-cylinder engine, electrically started, delivers impressive performance with a top speed of approximately 110 km/h above water and up to 50 km/h underwater. The engine was installed in 2018 and currently has 350 operating hours, with the boat having sailed a total of 585 hours. The engine was replaced after 260 hours.

The Seabreacher is equipped with a 60-liter fuel tank and various gauges, including a fuel gauge, oil pressure gauge, temperature gauge, and tachometer. The electrical system operates on 12V and is equipped with a battery charger. For safety, the vessel is equipped with two electric bilge pumps and an automatic fire extinguishing system in the engine compartment.

Unique Sailing Experience and Versatile Usability

What sets the Seabreacher X apart from other boats is its ability to sail both above and below the water surface. Thanks to its positive buoyancy, the vessel remains afloat even when the cockpit and engine compartment are fully flooded. The boat is capable of making spectacular jumps up to five meters above the water surface, providing a sensational experience for both the driver and passenger.

This Seabreacher has been primarily used on inland waters and has been employed for commercial purposes, such as demonstrations, events, and promotional activities. The boat has always been removed from the water after use and stored indoors, contributing to the current condition of the vessel.

The Seabreacher has been used for events but can also be customized with a client's branding through wrapping. An example of this can be seen in one of the photos where the Seabreacher is entirely branded in Domino's Pizza's style.

Equipment and Accessories

The Seabreacher comes with an extensive set of accessories and spare parts, including a cover, spare fin/wing, seals, supercharger, intercooler, fan, lifting cradle, electrical wiring harness, four steering cables, various maintenance products, and tools. The total new value of these extras is approximately €12,000. Additionally, an inflatable docking station with a compressor is included, making mooring and storage easier.

Trailer and Transport Options

A specially adapted Pega V-Liner 1500 road trailer from 2018 is included with the boat. This single-axle trailer is licensed, braked, and equipped with four rollers, a trailer winch, and a spare wheel. The trailer is designed for the safe transport of the Seabreacher and is in functional condition, with tires in good condition.

Summary

The 2018 Seabreacher X is a unique opportunity for those seeking a spectacular water experience or a striking vessel for commercial purposes. With its powerful engine, striking design, and exceptional sailing characteristics, this boat offers a combination of speed, agility, and visual impact that is rarely matched. Whether for recreational use or as part of a professional water sports business,

this Seabreacher is ready for new adventures.</p></p>
