<p>Motorboat 1100 now in the online auction. everyone can bid until 16 March 2026.

<h2>Motorboat 1100 from 1970 â#128;“ Spacious Steel Classic with Character</h2><p>This motorboat 1100 from 1970 offers a unique combination of space, functionality, and classic charm. With a length of 11 meters and a width of 3 meters, this vessel is extremely suitable for longer stays on board, both on inland waters and in sheltered coastal areas. The steel hull gives the ship a robust character, while the layout and equipment ensure a comfortable sailing experience for the whole family.</p><h3>Motorboat 1100 now in the online auction. Everyone can bid until March 16, 2026.</h3><h3>Classic Design with Practical Layout</h3><p>The motorboat 1100 is built with a steel hull and has an air draft of 2.65 meters, making it possible to sail under most bridges. The draft of 1 meter makes the ship suitable for various sailing areas, from rivers to lakes. Inside, there is a headroom of 2 meters, which contributes to the comfort on board, especially during longer trips.</p><p>The layout is practical and focused on comfort. The boat features a fixed sleeping area with a double bed, a dining area, a kitchen with a stove, oven, and refrigerator, and a manual toilet. The available heater provides extra comfort during cooler days, allowing the sailing season to be extended.</p><h3>Propulsion and Performance</h3><p>The boat is powered by a Ford inboard diesel engine with a power of 70 hp, distributed over three cylinders. This engine, electrically started, offers a cruising speed of approximately 18 km/h and a top speed of about 20 km/h. This makes the boat suitable for leisurely trips where enjoying the surroundings is central. The electric bow thruster facilitates maneuvering in harbors and when docking.</p><p>The engine is functional and was last maintained in 2023, during which the antifouling was also renewed. The onboard instruments, including a fuel tank gauge, oil pressure gauge, and tachometer, provide the skipper with the necessary information while sailing.</p><h3>Electrical Installation and Equipment</h3><p>The electrical installation on board is equipped with an inverter, shore power connection, and a voltmeter. There are three batteries present, and the system operates on 220v, which provides sufficient capacity for most electrical facilities on board. Externally, the boat is equipped with a canopy, offering extra protection against wind and rain while sailing or mooring.</p><p>For anchoring, there are two anchors with chain attachments available. The boat is sold including various accessories, an oven, and life jackets.</p><h3>Sailing Experience and Possibilities</h3><p>What distinguishes this motorboat 1100 is the space on board. The generous layout makes it possible to comfortably accommodate multiple people, making the ship ideal for family vacations or longer trips. The fixed sleeping area and functional kitchen contribute to a pleasant living environment on the water.</p><p>The current owner describes the boat as a fine, spacious companion for family outings, with the freedom on the water being mentioned as the most valuable memory. Despite some signs of use, such as damage to the bow, this ship offers plenty of possibilities for enthusiasts of classic motorboats looking for space and character.</p><h3>Summary</h3><p>The motorboat 1100 from 1970 is a characterful steel motorboat with a practical layout, spacious living environment, and functional equipment. Thanks to the combination of a reliable diesel engine, comfortable amenities, and robust construction, this ship is an interesting choice for water sports enthusiasts looking for a spacious motorboat with a classic appearance. Whether it's for weekend trips or longer sailing vacations, this boat offers a solid foundation for many new memories on the water.</p></p>
