## Various

<p>Admiral 25 now in the online auction. everyone can bid until 20 April 2026.

<h2>Admiral 25 &acirc;#128;&#147; Classic Italian Motor Yacht with Character and Space</h2><p>The Admiral 25, built in 1978 by the renowned Italian Admiral shipyard, is a classic motor yacht that combines style, space, and sailing characteristics in a timeless design. With a length of 24 meters and a width of 5.90 meters, this vessel offers an impressive amount of living space, both indoors and outdoors. The wooden construction contributes to the yacht's authentic appearance, while the equipment and amenities are tailored for comfortable stays on board, even for extended periods.</p><h3>Spatial Layout and Onboard Comfort</h3><p>Inside the yacht, the headroom of 2.06 meters is a striking feature, contributing to the sense of space and openness. The Admiral 25 has eight fixed berths and three additional berths, spread across multiple cabins and living areas. This makes the vessel extremely suitable for larger groups or families who want to enjoy a relaxing sailing holiday together.</p><p>The accommodation is equipped with various comfort-enhancing elements, including air conditioning, heating via a stove, a fully equipped galley with a stove, oven, microwave, refrigerator, and freezer. Additionally, there is a spacious dining area and a separate shower. The vacuum toilet is connected to a 1000-liter waste water tank, which also supports environmentally friendly stays on board. The water tank has a generous capacity of 3000 liters, contributing to autonomy during longer trips.</p><h3>Performance and Motorization</h3><p>The Admiral 25 is equipped with two powerful MTU 12V 331 diesel engines, each with 12 cylinders. The engines are electrically started and have an impressive number of operating hours, indicating intensive use. The starboard engine is currently not operational, and the port engine needs attention for fuel injection adjustment. Nevertheless, the vessel offers a cruising speed of approximately 22 km/h and a top speed of about 30 km/h, making it suitable for both leisurely trips and faster sea crossings.</p><p>The fuel tank has a capacity of 10,000 liters, allowing for long distances without frequent refueling stops. The electric bow thruster facilitates maneuvering in harbors and narrow waters. The electrical systems on board are supported by a Kohler generator of 11 kVA and a battery pack of 12 batteries with a total capacity of 230 Ah, with the batteries and charger recently replaced in 2024.</p><h3>Navigation and Equipment</h3><p>In terms of navigation, the Admiral 25 is equipped with a radar, fishfinder, compass, and VHF radio. These instruments make sailing on open water clear and safe. The onboard voltage is available in 12V, 24V, and 220V, allowing the use of various electrical appliances.</p><p>Externally, the vessel is equipped with a teak deck, bimini, cockpit table, outdoor cushions, and a swim platform with a swim ladder. The hydraulic anchor winch and two anchors with chain and line ensure a stable position at anchorages. A crane (hoist) on deck makes it easy to launch the tender &acirc;#128;&#147; a six-person Zodiac with a 40 hp Yamaha outboard motor.</p><h3>Sailing Experience and Possibilities</h3><p>The Admiral 25 is designed for comfortable sea sailing and offers a stable position, even in changing weather conditions. The spacious decks and the beach club area at the rear invite relaxation and social moments on board. Thanks to the layout and amenities, the vessel is suitable for various purposes, from day trips and weekend stays to longer vacations on the water.</p><p>The classic lines and Italian design give the yacht an elegant appearance that still impresses. Despite its age, the vessel has retained its charm and offers a unique sailing experience for enthusiasts of characterful motor yachts with a rich history.</p><h3>Summary</h3><p>The Admiral 25 is a spacious and characterful motor yacht with a classic appearance and functional equipment. With its generous living spaces, extensive amenities, and powerful motorization, this vessel is an interesting choice for those looking for a stylish yacht with great potential. Whether it's leisurely cruising along the coast or exploring open seas, this yacht provides a solid foundation for unforgettable sailing moments.</p></p>
