Remarks :
2018 Cormate T27 Supermarine Norway builds boats differently. The T27 comes from Hydro Design — the same studio behind the Hydrolift — and it shows in every detail. A purist's performance machine dressed in the kind of understated Scandinavian elegance that makes Italian sportboats look shouty. King Harald V of Norway reportedly replaced his ageing Riva with one. That tells you everything. At 8.46 metres with a 2.55m beam, she carries her performance in a compact, purposeful package. The 24-degree single-step hull is what separates her from the competition — composed, capable, and built for water that other boats avoid. On deck, teak throughout, an aft sunlounger that converts between a large lounger and a four-person dining station, seating for eight. Below, a double berth forward with storage and a heads — everything you need, nothing you don't. The Supermarine specification brings the premium equipment package: twin chart plotters, leather interior, and the fit and finish that makes this one of the most distinctive sportboats in the Mediterranean. Engine details and hours available on request. Contact us to arrange a viewing.
