## Various

Bayliner 175 XT now in the online auction. everyone can bid until 20 April 2026.

**Bayliner 175 XT (2005)** sporty open bowrider (5.33 m) with MerCruiser 135 hp for day trips and watersports

The 2005 Bayliner 175 XT is a compact, sporty bowrider designed for maximum fun on the water in a manageable size. With an overall length of 5.33 metres and a beam of 2.13 metres, this open motorboat offers a pleasant balance between onboard space and agility. The GRP hull with V-bottom is aimed at comfortable planing and stable handling, which makes this type of Bayliner popular with watersports enthusiasts as well as with people looking for an accessible boat for relaxed day trips on lakes, rivers and sheltered coastal waters.

**Bayliner 175 XT** now in the online auction. Anyone can bid up to and including 20 April 2026.

**Hull, dimensions and handling**  
The Bayliner 175 XT has a V-bottom that helps cut through waves and maintain course, especially when the water gets a bit choppy. At the same time, the boat's character remains light and direct, translating into lively steering response and a playful driving experience. Thanks to its compact dimensions, docking and manoeuvring in marinas or alongside jetties is easy, while the 2.13-metre beam provides a stable feel at rest and when boarding. The draft of approximately 1.60 metres means it's important to be mindful of shallow areas, but in practice this model is primarily intended for typical cruising areas where planing and watersports are the focus.

**Engine and performance: MerCruiser 3.0L 135 hp petrol**  
At the stern is a MerCruiser 3.0L inboard petrol engine with 135 hp and four cylinders, model year 2005. This engine is known for brisk acceleration and a comfortable cruising speed exactly what you want in a sporty bowrider. The power is well suited to activities such as waterskiing, wakeboarding or a kneeboard session, especially in combination with the light hull and direct handling. For anyone looking for a Bayliner 175 XT as a watersports boat, this is an attractive setup: enough punch to get on plane quickly, while still manageable for skippers without years of experience.

**Cockpit, layout and ease of use on board**  
The Bayliner 175 XT is an open sport boat focused on clarity and simplicity. The helm position is logically laid out, with clear basic instrumentation including a log/speedometer, so you can see the key running information at a glance. The 12V system supports onboard electronics and everyday use. Thanks to the open layout, there is plenty of connection with the water and your guests, making this bowrider ideal for day outings, swimming at anchor, or a cruise with friends and family.

**Equipment for swimming, sun and watersports**  
This Bayliner is equipped with features that make time on and around the water even more enjoyable. The swim platform and swim ladder make it easy to get back on board after a swim, while the exterior cushions add comfort underway or at rest. For shade and protection, there are two different canvas covers. Watersports enthusiasts benefit from the aluminium wakeboard tower with integrated supports, complemented by a lateral board rack for a wakeboard or wakesurf board. In addition, a kneeboard is included, so you can head straight out for active sessions.

**Use and cruising area: from lakes to sheltered sea**  
According to the information provided, the boat has been used on lakes and at sea, which suits the character of the Bayliner 175 XT: an agile sport boat for leisure cruising and day trips, with enough capability to handle sheltered coastal areas as well. The model is popular with people looking for a trailerable, practical bowrider that is quick to get ready and is all about fun, watersports and relaxed outings.

**Maintenance and condition indication**  
The boat was last taken out of the water for maintenance in 2026. It is also stated that there is no osmosis or signs of osmosis present. These are relevant points for buyers who pay close attention to the condition of a GRP hull and the general usability of a pre-owned Bayliner bowrider.  
Anyone looking for a Bayliner 175 XT for sale as a sporty open motorboat with a MerCruiser 135 hp

engine, wakeboard tower, swim platform and user-friendly handling will find in this model an attractive combination of performance, ease of use and watersports potential in a compact package.</p></p>
