Mechanical :

The yacht is powered by a Volvo Penta diesel engine delivering reliable performance and efficient fuel consumption. The saildrive system ensures smooth operation with reduced vibration and easy handling. She features a fractional sloop rig, providing excellent balance and responsive sailing characteristics. The rig is well suited for both performance sailing and comfortable cruising, allowing easy sail handling even with a reduced crew. Wheel steering offers precise control, while the overall setup makes the yacht manageable for both experienced sailors and those stepping

into performance cruising. The mechanical and rigging systems have been regularly maintained and are in good working condition.
