Quicksilver 450sf now in the online auction. everyone can bid until 18 May 2026.

Quicksilver 450SF ready for fishing and leisure

The 2010 Quicksilver 450SF is the kind of boat that immediately inspires plans. She is compact enough to trailer and launch with ease, yet offers surprisingly usable space for a day of fishing, a sporty trip on inland waterways, or simply relaxed cruising for two. This Quicksilver fishing boat is being auctioned via BoatAuction and comes as a complete set: the boat, her Tohatsu 25 hp four-stroke outboard engine, and a road trailer with registration. That makes her interesting for anyone looking for a Quicksilver 450SF for sale, a trailerable fishing boat, or a practical aluminium boat for recreational use.

With a length of 4.50 metres and a beam of 1.70 metres, the Quicksilver 450SF is easy to handle. She feels accessible for anyone who wants to get on the water quickly, without the hassle of a permanent berth. The stated cruising speed and top speed are around 25 km/h, making her suitable for relaxed trips on inland waters and for sporty use within local regulations. According to the owner, the boat has seen little use in recent years due to personal circumstances.

Quicksilver 450SF now in the online auction. Anyone can bid up to and including 18 May 2026.

What kind of boat is the Quicksilver 450SF?

The Quicksilver 450SF is a compact sport and fishing boat focused on practical use. She is designed to be easy to operate, respond quickly to steering input, and be simple to transport on a trailer. Thanks to her size, she is suitable for solo boating, but with an extra passenger there is generally still enough room to sit comfortably and bring gear along. Anyone searching for a Quicksilver 450SF fishing boat, aluminium fishing boat with outboard, or trailerable sport boat, will quickly come across this type, as it is an accessible class for many watersports enthusiasts.

Which engine is fitted and what can you expect?

This Quicksilver 450SF is supplied with a Tohatsu 25 hp four-stroke outboard engine. This offers a nice combination of lively performance and straightforward operation. A 25 hp outboard is a pleasant choice for many inland waterways: enough power to make good progress and hold course, without immediately becoming a large and heavy engine package. The owner describes her as powerful and easy to handle, which suits this type of boat well. For buyers specifically searching for a Tohatsu 25 hp 4-stroke boat, or Quicksilver with 25 hp, this is a logical match.

Is a trailer included and is she ready to transport?

Yes, she is delivered with an Excellent road trailer with registration, model year 2010. The trailer is unbraked and, according to the information provided, in good condition. This makes the package attractive for those who like to visit different cruising areas or store the boat at home.

A boat-and-trailer set also saves time arranging transport and often makes viewing and collection easier. If you are looking for a boat with trailer for sale, or a Quicksilver 450SF with trailer, it is convenient that this combination is offered as a single lot.

Which accessories are included?

This auction lot also includes practical extras you almost always use on the water.

She comes with an anchor, a battery, and fenders. These are exactly the items that make the difference between buying just a boat and actually being able to head out for a first day on the water. For a fishing boat, the anchor is useful for holding position on a spot, while fenders are handy when docking or mooring alongside a quay.

What is her usage and maintenance history?

The boat has been used on inland waters and for sporty cruising. According to the information, she was purchased about six years ago and then used only limitedly. Documentation is available in the form of a registration certificate for a fast motorboat, which for many buyers is a reassuring starting point for the transfer.

Anyone looking for a 2010 Quicksilver 450SF, a compact fishing boat with outboard engine, or a

complete boat with trailer via BoatAuction will find an inviting combination in this lot. She is made to be used: a day of fishing, an evening cruise, or a spontaneous weekend on the water.</p></p>
