Boat also suitable for leisure/family outings

Ski pole

Teak-battened bathing platforms

Console cover

Dual-purpose: fishing + leisure

Trailer included:

Double-axle suspended trailer

5-ton electric winch

Full autonomy:

easy launching

long-distance transport

optimized storage

This Cap Camarat 7.5 CC is not a standard configuration. It has been prepared for deep-sea fishing with a level of equipment rarely found on the market.

Everything is already installed: complete Garmin electronics, secure power, fishing equipment; no expenses to anticipate.

Engine maintenance is very rigorous with two servicing per year.

The fact that it is never left in water ensures better overall conservation compared to most equivalent units.

The double-axle trailer with electric winch makes the boat fully autonomous, which is a real economic and logistical advantage.

"Today, finding a Cap Camarat 7.5 CC already fully offshore-equipped, maintained and including a trailer is extremely rare. Here, you can go fishing tomorrow." More details and pictures on xboat.uk
