ROMANEE ? 10.20 m Aluminium ? Harlé Design ? 2019 Engine ? Cruising Project

Romanée aluminium sailing yacht, built in 1977 by the Pouvreau shipyard, well known for the quality of its construction. Designed by Harlé, this model is recognized for its seaworthiness and reliability for cruising.

Main characteristicsLength: 10.20 mBeam: 3.52 mDraft: 1.50 mConstruction: Aluminium (strong scantlings)Engine: Volvo D1-20, replaced new in 2019Transmission: Shaft driveFuel capacity: 50 LWater capacity: 200 L

Major works & key featuresEngine replaced (2019)Standing rigging fully replaced in 2017Full sandblasting and underwater hull protection in 2014Visually sound structureRenowned Pouvreau build quality and efficient Harlé design

The main technical items have been addressed, representing a significant investment already completed.

Accommodation3 cabins (1 forward + 2 aft, open layout)1 head located forwardComfortable saloonGalley with stove and oven

Rigging & equipmentMainsailFurling genoaTriradial spinnakerLazy jacksAutopilotFixed and handheld VHFRaymarine instruments (log, speed, wind)Garmin chartplotter

Work to be carried outHull topsides paintDeck paintRunning rigging to be replaced

These works are mainly cosmetic and will significantly enhance the boat once completed.

This Romanée represents a great opportunity. Thanks to her recent major upgrades (engine, rigging, hull treatment) and sound structure, she is an ideal base for a cruising or bluewater sailing project.

Available for viewing by appointment. Full file and pictures on request.
