Quicksilver 650 Cruiser now in the online auction. everyone can bid until 22 June 2026.

### Quicksilver 650 Cruiser ready for new adventures

Anyone looking for a practical and comfortable cabin boat for both a relaxed day trip and a spontaneous weekend away will find this Quicksilver 650 Cruiser an appealing candidate. She was built in 2004 and measures 6.50 metres in length with a 2.47-metre beam, featuring a V-shaped hull that cuts smoothly through the water. Thanks to her clear layout and pleasant handling, the boat is suitable for a wide range of cruising areas, from canals and ditches to open water and coastal waters. The current owner describes her as comfortable and easy to handle, with a fond memory of encountering dolphins near Fort Boyard in the La Rochelle area.

The Quicksilver is built in polyester and has an air draft of approximately 1.00 metre. Inside, headroom is also around 1.00 metre, which suits this type of compact cruiser: cosy, functional, and focused on outdoor living with the option to spend the night sheltered. She has two fixed berths, ideal for a couple or for those who enjoy travelling as a pair. With her cockpit table, exterior cushions and bimini, the cockpit is set up for lingering&acirc;&#128;&#148;eating and enjoying time on the water.

### Quicksilver 650 Cruiser now in the online auction. Everyone can bid up to and including 22 June 2026.

### What makes this Quicksilver 650 Cruiser interesting?

This Quicksilver 650 Cruiser combines a manageable size with features you would normally expect on a larger cabin boat. Think of a neat cockpit layout with table, a swim ladder for a refreshing dip, and guardrails that add to the feeling of safety on deck. Practical too: she comes with fenders and lines, a cockpit cover, and an anchor with chain and line. The hydraulic anchor winch helps when anchoring, especially if you like to stop in different spots for lunch or an overnight stay.

### How does she handle and what engine is installed?

She is equipped with a MerCruiser inboard diesel engine, model 1.7 CDTI, year of manufacture 2004. According to the information provided, the engine is operational and has approximately 570 running hours. Diesel propulsion is often chosen for its range and the character of the drive, and the owner describes this boat as relatively economical to run. For monitoring while underway, instruments are fitted such as a tachometer, temperature gauge, oil pressure gauge and fuel gauge. The diesel tank has a capacity of about 100 litres, which is convenient for longer day trips and weekend outings.

### Is she ready for the season and what has been done recently?

The boat was last taken out of the water for maintenance in 2025, and antifouling was applied in the same year. According to the information provided, there are no signs of osmosis. For many buyers searching terms such as &acirc;&#128;&#156;Quicksilver 650 Cruiser for sale&acirc;&#128;&#157;,, &acirc;&#128;&#156;diesel cabin boat&acirc;&#128;&#157; or &acirc;&#128;&#156;polyester motorboat with trailer&acirc;&#128;&#157;,, this is relevant information, as it indicates recent use and attention to the underside of the hull. Documentation is available, including a purchase invoice and registration papers, and there is also mention of maintenance invoices for the Z-drive and materials.

### What about comfort on board?

On board, it&acirc;&#128;&#153;s all about outdoor living with the luxury of a sheltered place to sleep. The two fixed berths make her suitable as a weekend boat, while the cockpit invites long days on the water. With the bimini you can create shade on warm days, and the cockpit table turns the cockpit into a pleasant place to dine or enjoy drinks. The swim ladder makes it easy to get back on board after swimming or after stopping at a jetty.

### Is she supplied with a trailer and what does that mean for you?

Yes, she is offered including a braked road trailer with registration, making this package especially attractive for those seeking flexibility. The trailer is a Mecanorem from 2004, with two axles, a tilting function and a payload capacity of 2,200 kg. Dimensions are approximately 7.00 by 2.50 metres. A winch is present, and the description mentions an electric winch. With a registered boat trailer, it becomes easier to store her, transport her to

another cruising area, or prepare her at home for the season.</p><p>This Quicksilver 650 Cruiser is an inviting combination of a sporty cruiser, diesel inboard propulsion and a complete set-up for relaxed recreational boating. She is waiting for a new owner to take her to beautiful anchorages, cosy harbours, and perhaps even another unexpected encounter with dolphins.</p></p>
