Various

Remarks :
The Larson 240 Cabrio is a well designed and versatile sports cruiser that combines comfortable accommodation with capable cruising performance. Sea Breeze is fitted with the desirable Volvo Penta D4-225HP diesel engine package, offering strong performance, sensible running costs and comfortable cruising speeds around 26-28 knots.

Sea Breeze benefits from a number of recent upgrades and maintenance items including a refurbished cockpit canopy, new Garmin plotter, new stereo and speakers, LED lighting upgrades, cockpit carpeting, leg service, antifoul, anode replacement and engine servicing completed during 2024.
The cockpit layout is particularly sociable with flexible seating arrangements including a foldaway rear bench and chaise longue style seating which converts into a sunbed. Additional features such as the teak cockpit table, cockpit sink, cup holders and upgraded sound system make the space well suited to entertaining and relaxed days afloat. The blue hull finish and faux foam teak transom decking also give the boat an attractive appearance on the water.
Below decks, the accommodation offers a practical layout for weekends away with a forward V berth seating area, separate mid berth beneath the cockpit, enclosed heads compartment and compact galley complete with hob, microwave and refrigerator.
Presented in generally nice condition throughout, Sea Breeze shows some cosmetic wear in places consistent with the age of the vessel, including some running repairs to cockpit upholstery, but overall appears to have been well maintained and sensibly upgraded by the current owner.
An appealing diesel sports cruiser with a strong specification and practical layout.

Brokers Remarks

Sea Breeze is a smart looking Larson 240 Cabrio with a particularly desirable diesel engine package and a very usable specification. The blue hull gives her a noticeably more modern appearance and she benefits from a good level of recent maintenance and upgrading including electronics, servicing and cockpit improvements.
The cockpit is a genuinely nice space to spend time in with flexible seating arrangements and plenty of social space for a boat of this size. Internally she offers practical accommodation for weekends away while still remaining manageable and easy to use as a day boat. She presents well overall with only minor cosmetic age related wear visible in places.
