Eepol 430 now in the online auction. everyone can bid until 22 June 2026.

Eepol 430 ready for carefree boating enjoyment</h2><p>Anyone looking for a compact and practical polyester boat for relaxed trips on inland waters will find this Eepol 430 an appealing combination of simplicity, ease of use and complete equipment. Built in 2023, she measures 4.30 metres in length and 1.60 metres in width, with a shallow draft of around 20 centimetres. This makes the boat suitable for a wide range of cruising areas such as canals and ditches, lakes, ponds and rivers. The steering position is outside, which suits the open character of this type of sloop-style day boat. In this Boatauction auction, she is offered as a complete set, including a working Suzuki outboard engine and a road trailer without registration.</p><p>The Eepol 430 is made of polyester, a material popular with those seeking a low-maintenance leisure boat. According to the information provided, there are no signs of osmosis. The boat was last taken out of the water in 2026, which is a reassuring reference point for many buyers when planning the upcoming boating season. Whether you have a day on the water in mind, relaxed leisure cruising with family, or a weekend away on calm waters, this Eepol offers an accessible entry into boating with your own boat.</p></h3><h3>What makes this Eepol 430 interesting for recreational boating?</h3><p>She is particularly attractive because of her size and handling characteristics that suit typical Dutch inland waters. At 4.30 metres long, the boat is easy to berth and manoeuvre, while the 1.60-metre beam provides enough stability for comfortable seating and calm cruising. Thanks to the limited draft, the boat also performs well on shallower stretches, for example in narrow ditches or along reed beds. Anyone searching for â€œEepol 430 for saleâ€, â€œpolyester boat 4.30 metresâ€ or â€œsmall boat with outboard motorâ€ often ends up looking at exactly these kinds of practical all-rounders.</p></h3><h3>Which engine is included and what can you expect?</h3><p>The boat comes with a Suzuki DF4 outboard engine of 4 hp, hand-started and petrol-powered. The engine is stated to be in working order. This type of outboard is popular with those who want straightforward boating without complicated systems. For gentle cruising, a lap through the canals or a relaxed trip across lakes and open water, 4 hp generally provides pleasant, controlled propulsion. The combination of a light boat and a compact outboard also makes the whole setup easy to manage, including for buyers purchasing their first boat.</p></h3><h3>Is a trailer included and how convenient is that?</h3><p>Yes, she is offered with a road trailer without registration, single-axle and stated to be in good condition. Having a trailer with the boat is an important advantage for many bidders, as it makes transport, storage and launching at different locations much easier. That gives you freedom: a trip on the lake today, a river route next week, and in between simply back on the trailer. Anyone searching for â€œboat with trailerâ€ or â€œboat and trailer setâ€ knows itâ€™s helpful when the boat and trailer match straight away, so you donâ€™t have to puzzle afterwards over dimensions and support.</p></h3><h3>What is the condition and what documentation is available?</h3><p>The boat is stated to be in good condition and documentation is available mentioning NL EEMO.0024A3.23. It is also indicated that no osmosis has been found. For buyers who value a clear story regarding origin and specifications, it is reassuring that this information is included. Since she was still out of the water in 2026, you can pay extra attention during viewing to the overall condition of the hull, fittings and the operation of the engine, so you can bid with confidence.</p><p>This Eepol 430 is therefore a complete and accessible set for anyone looking for a compact recreational boat: a polyester boat with outboard engine, trailer, and a size that invites you to head out on the water spontaneously. A great opportunity in the Boatauction auction for anyone who wants to cruise this summer on

inland waters, canals, lakes and rivers with a practical boat ready for new trips.</p></p>
