Why choose this First 24 SE?

The First 24 SE is currently one of the most sophisticated transportable sportboats on the market. Its lightweight infusion-molded construction, all-carbon rig, lifting keel, ergonomic cockpit, and exceptional seakeeping appeal to both racers and fans of fast cruising.

Easy to tow, quick to launch, and extremely high-performing under sail, it allows you to compete in international regattas or set out to explore new bodies of water with ease.

This boat, which has seen very little use and has been meticulously maintained, represents a rare opportunity to acquire a First 24 SE in excellent condition, fully equipped, and available immediately.
