Clever Mirage now in the online auction. everyone can bid until 21 September 2026.

clever mirage sloop for relaxed cruises

what kind of boat is the clever mirage?

the 2006 clever mirage is a compact polyester sloop with an inviting appearance and practical features for relaxed day trips. with a length of 4.80 metres and a beam of 1.20 metres, she is easy to manoeuvre on inland waterways, in canals and on lakes. her draft of approximately 40 centimetres also makes her suitable for waterways where clearance beneath the boat is limited.

the blue hull gives this clever mirage a classic and well-maintained appearance. a rubbing strake runs around the boat, adding character while also providing protection when mooring. she is fitted with covers from bow to stern. these covers can be removed completely, allowing the boat to be used fully open in good weather. when the boat is not in use, the covers protect her from the elements.

the boat was previously purchased from boatworld in almere and has always been kept in winter storage. she was used for enjoyable day trips, including through the canals of almere. this suits her character well: a straightforward sloop that allows you to spend an afternoon on the water without extensive preparation.

clever mirage now in the online auction. everyone can place bids until and including 21 september 2026.

how does this sloop perform and manoeuvre?

the clever mirage is powered by a 15 hp yamaha outboard engine from 2006. the engine runs on petrol, is operational and is supplied with a 15-litre fuel tank. a fuel tank containing 10 litres of petrol is also included in the sale. thanks to its 15 hp, the sloop gets underway smoothly and offers sufficient speed for relaxed trips on inland waterways and lakes.

the steering position is located outside and uses a steering wheel. this gives you a direct view of your surroundings while underway and allows you to steer the boat comfortably along banks, through narrow passages and in harbours. the owner describes her as easy to handle. this makes her appealing both to recreational beginners and to experienced boaters looking for a simple and manoeuvrable sloop.

the hull has an s-shaped profile. this hull shape contributes to the boat's traditional appearance and suits her calm cruising characteristics. the guard rail provides additional support on board, while the swimming ladder at the stern makes getting in and out of the water easier.

what equipment is included?

this clever mirage comes with practical basic equipment. fenders and lines are on board, so she is immediately prepared for mooring. the dutch flag and three fenders are also included in the sale. the boat is additionally equipped with a cover, guard rail and swimming ladder.

a trailer and tender are not included in the sale. this is important to consider if you wish to transport her or launch her at another location. for use from a permanent berth or in combination with a suitable lifting or transport solution, she is nevertheless an attractive choice.

the covers are a particularly practical feature of this sloop. according to the seller, they are in good condition and can be removed completely. this allows you to adapt the boat to the weather and your intended use. on a sunny day, the boat offers an open and spacious feeling, while at other times the covers provide shelter and protection.

what is known about the condition?

according to the information provided, the clever mirage is in good condition. she was taken out of the water for maintenance in 2026. the last antifouling treatment was carried out in 2024. no signs of osmosis have been identified and no known defects have been reported. the combination of a polyester hull, winter storage and regular recreational use gives a clear impression of a boat that has been well cared for.

as with any used boat, we advise interested parties to inspect her carefully during a viewing. among other things, pay attention to the hull, covers, engine, steering system and the general operation of the equipment on board. a sea trial or technical inspection can help provide an accurate impression of her current characteristics.

who is this clever mirage suitable for?

this blue sloop is suitable for enthusiasts of

peaceful cruises, sociable afternoons on the water and short trips in the local area. her compact size makes her easy to use, while the 15 hp yamaha provides sufficient power for a smooth cruise. she is well suited to families, couples or groups of friends looking for a straightforward boat for recreational use.

thanks to her shallow draft, the boat can explore various types of waterways, including canals, ditches, lakes and inland waters. her history in almere shows that she has already been used for atmospheric trips through both urban and rural waterways. the rubbing strake, blue colour and classic lines give her a timeless appearance that would look equally at home in a marina or alongside a city quay.

through boatauction, you have the opportunity to bid on this clever mirage. she combines an attractive size with a working yamaha outboard engine, removable covers and a complete basic setup for relaxed boating pleasure. anyone looking for a compact polyester sloop with wheel steering and a distinctive appearance would do well to take a closer look at her.
