Sea Ray Amberjack 315 now in the online auction. everyone can bid until 19 October 2026.

Sea Ray Amberjack 315

What kind of boat is this Sea Ray?

The 2003 Sea Ray Amberjack 315 is a spacious motorboat with a practical layout for relaxing stays on board. With a length of 9.30 metres, a beam of 3.05 metres and a draft of 0.80 metres, she offers a pleasant combination of indoor and outdoor space. The boat has a V-shaped hull, twin rudders and wheel steering at the exterior helm.

The Amberjack 315 is built from composite and weighs approximately 6,500 kilograms. Her air draft is 2.00 metres. The layout is designed for onboard stays and recreational boating, with four permanent berths and space for two additional berths.

Sea Ray Amberjack 315 now in the online auction. Everyone can place bids until 19 October 2026.

What is the layout like on board?

In the cabin, she has a large double bed in the forward section. The galley is located to port and is equipped with a cooking appliance, oven, microwave, refrigerator and freezer. The saloon has a dining area with a table and provides space to sit indoors when the weather is less suitable for spending time in the cockpit. Mattresses are included.

A second double bed is located aft. This gives the Sea Ray two separate sleeping areas. The sanitary facilities consist of a vacuum toilet, shower and hot-water system. The toilet discharge is not connected directly to open water. For additional comfort, air conditioning and hot-air heating are available.

The water tank has a capacity of 1,000 litres, while the waste-water tank holds 200 litres. These capacities make her suitable for longer stays on board, depending on usage and the available facilities ashore.

What does the cockpit offer?

The cockpit is equipped with seating and provides a spacious area for company, meals and relaxation. There are cockpit cushions, a canopy and a cover. The floor is finished in teak. At the stern, there is a swimming platform and swim ladder. A guardrail runs around the outside and contributes to the practical usability of the deck.

For anchoring, the boat has one anchor with chain and line. The electric windlass makes handling it easier. An electric bilge pump is also present.

What engines does the boat have?

The Sea Ray Amberjack 315 is powered by two inboard petrol engines. Both engines are V8s with a stated output of 320 hp each and electric start. The first engine is listed as having been built in 2014 and the second in 2015. According to the information provided, both engines are operational.

The fuel tank has a capacity of 430 litres. The stated cruising speed is 55 kilometres per hour and the maximum speed is 75 kilometres per hour. On board, there is an oil-pressure gauge, temperature gauge and tachometers. Propulsion is provided by MerCruiser Bravo 3 sterndrives.

The boat was last taken out of the water for maintenance in 2024. The antifouling treatment was also carried out that year. No known defects have been reported. As with any used boat, it is advisable to carefully inspect the general condition, finish and equipment present during the viewing day.

What equipment is available?

For the electrical system, she has a battery charger, inverter and shore-power connection. There are three batteries, and the system operates at 12 volts. A GPS and VHF radio are installed for navigation and communication. The exterior helm, anchor, windlass and other deck equipment make her suitable for various forms of recreational use.

The combination of the spacious cockpit, two sleeping areas, galley and sanitary facilities gives her a versatile character. She can be used for day trips, weekends on board and longer stays, depending on your personal preferences and the conditions on the water.

What is the background of this boat?

The current owner purchased the boat approximately six years ago. During the first period, she was used regularly on inland waterways, lakes and at sea. In recent years, her use has been limited due to a lack of time. The Sea Ray has been used for recreational boating and is now being offered to someone who would like to give her a permanent place in their leisure time again.

According to the information

provided, the boat's documentation is available. This gives you the opportunity to calmly review the available information during the viewing day and compare it with the boat's specifications and equipment on board.

Why could this Amberjack be interesting?

For anyone looking for a spacious motorboat with berths, a complete interior layout and a generous cockpit, this Sea Ray is a practical candidate. Her length remains manageable, while she offers many facilities inside. The combination of twin engines, air conditioning, heating, galley, shower and two sleeping areas makes her suitable for comfortable stays on the water.

When searching online for buying a boat or buying a used boat, it is important not to look only at the model and year of construction. Also check the engines, maintenance records, tank capacities, documentation and the condition of the upholstery, teak flooring and technical systems. These boat-buying tips will help you assess whether the Amberjack suits your plans.

What should you look out for during the viewing day?

The boat can be viewed during the viewing day. This is the opportunity to personally assess her layout, equipment and general condition. Take the time to carefully inspect the cabin, berths, galley, sanitary area, cockpit, engine room and deck. Also check whether the available documentation corresponds with the boat's details.

Buying a used boat requires a realistic assessment of age, use and maintenance. The Sea Ray Amberjack 315 is a 2003 model and has equipment aimed at onboard stays and recreational use. The viewing day gives you the opportunity to determine for yourself whether her size, layout and condition match what you are looking for.
