Wibo 945 now in the online auction. everyone can bid until 16 November 2026.

wibo 945 with character and a practical layout

what type of boat is the wibo 945?

the wibo 945 is a steel cabin sailing boat from 1983, built by van wijk in woubrugge to a design by van der stadt. with a length of 9.35 metres, a beam of 3 metres and a draught of 1.50 metres, she is suitable for relaxed trips on inland waterways, lakes, ponds and rivers. the chine hull gives her a recognisable classic appearance and a practical layout for longer days on board.

inside, she offers headroom of approximately 2 metres. the boat has four fixed berths and one additional berth. this makes her suitable for a couple or family who want to combine day trips and weekends on the water. the accommodation consists of a cosy cabin with a navigation table, dining area, mattresses and a hanging locker. the space is arranged clearly and has a functional appearance that suits her year of construction.

wibo 945 now in the online auction. everyone can place bids until 16 november 2026.

how is the living space on board arranged?

the galley has a worktop with running water supplied by an electric foot pump. a gimballed two-burner gas stove is available for preparing meals. the water tank has a capacity of 60 litres. there is also a manual toilet on board with an 80-litre holding tank. according to the information provided, the toilet discharge is connected directly to the surrounding water.

there is no heating. for overnight stays and weekend use, it is therefore important to take the weather conditions and the temperature on board into account. the cabin provides sufficient space to sit, eat and sleep under shelter, while the cockpit invites you to sit outside during calm days on the water.

which engine and facilities does she have?

the wibo 945 is equipped with a buk inboard diesel engine, type dv24me. this two-cylinder engine was built in 2005 and delivers 24 hp. it has electric starting and is reported to be operational. the engine is directly water-cooled. an oil pressure gauge, temperature gauge and tachometer are fitted for monitoring during use. the diesel tank has a capacity of 60 litres.

in terms of electrical equipment, the boat has a battery charger, alternator and shore power connection. there are two batteries with a combined capacity of 160 amp-hours. the electrical system operates at 12 volts. led lighting has been installed in the cabin. the combination of shore power and the onboard batteries provides practical options for staying on board and using the available equipment.

which navigation equipment is present?

various navigation aids are present on board. the equipment includes an autopilot, depth sounder, gps, chartplotter, compass, log and speedometer, and vhf radio. this provides a broad basic setup for navigation and monitoring during trips. the boat is steered from outside using the tiller. she has a single rudder.

the aluminium mast can be fitted with a mainsail and a genoa. the mainsail is red and has three reefing options. the white genoa is mounted on a furlex furling system. the sails are described as being in reasonable condition. for anyone looking to buy a boat with traditional sailing equipment and practical navigation equipment, this wibo 945 is an interesting candidate to inspect more closely during the viewing day.

how is the outdoor space equipped?

the cockpit has a cockpit table, outdoor cushions and a cockpit tent. a sprayhood provides additional shelter in changeable weather. a fixed stainless-steel guardrail is fitted around the boat, with a pulpit and pushpit. there are also fenders, lines, two anchors with chain and line, and a bathing ladder. the cockpit is self-draining and a manual bilge pump is on board.

the stated weight is approximately 6,500 kilograms. the boat has been used for day trips on the water, recreational boating and weekend trips. her cruising area consisted of inland waterways, lakes, ponds and rivers.

what is known about the condition of the boat?

the last recorded maintenance during which she was taken out of the water took place in 2021. the last antifouling treatment also dates from 2021. as this work was carried out some time ago, it is advisable to pay attention during the viewing day to the

general condition of the hull, deck, rigging, engine, systems and interior.

all necessary documentation for the boat, engine and equipment is available. the viewing day gives you the opportunity to inspect the wibo 945 at your leisure and compare the available information with the boat's actual condition. a viewing is therefore an important part of your preparation.

who is this wibo 945 suitable for?

this boat is suitable for you if you are looking for a classic steel cabin sailing boat with generous headroom, four fixed berths and practical equipment. she may be of interest for relaxed weekend trips, longer days on sheltered waters and recreational sailing with family or friends. the combination of her compact dimensions and spacious accommodation makes her versatile within the possibilities offered by a boat of this age.

when searching for a boat to buy, it is advisable to look not only at the make and length, but also at the maintenance records, engine, berths and available equipment. anyone looking to buy a second-hand boat would do well to carefully assess the condition of all components. this wibo 945 offers a clear starting point with her known specifications and available documentation. if you are collecting tips on buying a boat, be sure to take your time during the viewing day and compare your expectations with what you actually find on board.
