Doerak 730 AK now in the online auction. everyone can bid until 14 December 2026.
<h2>doerak 730 ak for relaxed inland cruising</h2><h3>what kind of boat is the doerak 730 ak?</h3> this 1979 doerak 730 ak is a steel motor cruiser measuring 7.30 metres in length, 2.80 metres in beam and with a draught of 0.65 metres. she has a chines hull and is designed for use on inland waterways. with her air draught of 2.40 metres, she can navigate many waterways in the netherlands and belgium, although it is advisable to check the bridge clearances along your planned route in advance. the boat has a classic and practical character. inside, she offers approximately 1.70 metres of headroom. the layout includes a dining area, a galley and sleeping accommodation for two people in fixed berths. two additional berths are also available. this makes her suitable for day trips, weekends and short holidays with a small group. <h3>doerak 730 ak now in the online auction. everyone can place bids until 14 december 2026.</h3><h3>what is the layout like on board?</h3> the interior includes a dining area, mattresses, a cooking appliance, an oven, a refrigerator and a freezer. hot water is also available. the electric toilet is connected to a 55-litre holding tank and, according to the information provided, does not discharge directly into open water. the water tank has a capacity of 75 litres. the interior steering position with wheel provides the skipper with shelter in less pleasant weather conditions. outside, the doerak has a cockpit tent, exterior cushions, davits, a bathing platform and a swimming ladder. fenders, lines and a pulpit rail are also present. a dinghy and trailer are not included. the boat weighs approximately 4,500 kilograms. <h3>which engine is installed in this doerak?</h3> the boat is equipped with an inboard volvo penta d2 40 diesel engine. this four-cylinder engine produces 37 hp and, according to the information provided, was built in 2017. the stated number of engine hours is 200. the engine is electrically started and is reported by the seller to be in working order. the stated cruising speed is around 9 kilometres per hour. the maximum speed is approximately 13 kilometres per hour. the boat has a fuel tank gauge and tachometer. the diesel tank has a capacity of 70 litres. the last time the boat was taken out of the water for maintenance was in 2023. antifouling was applied in the same year. this information provides an overview of the known maintenance history, but it remains important to assess the general condition of the engine room, technical systems and installations yourself during the viewing day. <h3>what navigation and technical equipment is available?</h3> for navigation and communication, the doerak is equipped with a garmin ghc10 autopilot, a garmin 720s chartplotter, ais, gps, depth sounder, compass, and a log and speedometer. communication equipment includes a garmin vhf200i and a portable icom marine radio. the technical equipment is therefore suited to straightforward inland navigation and longer trips where additional information about position and depth is useful. the electrical system operates on 12 and 220 volts. the boat has a battery charger, alternator, inverter, shore power connection and solar panel. two batteries are specified: a 140 ah domestic battery and a 50 ah starter battery. the boat also has an electric bilge pump. according to the description, the available equipment has been renewed, but the operation and current condition of all components are best checked during the viewing day. <h3>is this boat suitable as a first boat?</h3> the doerak 730 ak may be appealing to anyone looking for a manageable motor cruiser for inland waterways. her dimensions are easy to handle, while she still offers an interior with sleeping accommodation, galley facilities and a toilet. the interior steering position makes her usable in a range of weather conditions. the cockpit tent also allows the outdoor area to be used in sheltered conditions. anyone buying a boat for the first time should look beyond the price and layout. also check the condition of the steelwork, electrical systems, engine room, upholstery, tent and safety equipment. this boat is offered with a lifebuoy and four life jackets. the viewing day is the right opportunity to determine whether her layout and
