Various

XBOAT ref :5938.

Jeanneau Leader 805 with annual engine maintenance.

The engine of this Leader 805 is particularly rare in its diesel version with its Volvo Diesel KAD43P.

The turbo of this Volvo Diesel engine is brand new (2024), as are the heat exchangers replaced in 2022.

This Leader 805 is also very interesting due to its bow thruster installed in 2023.

The water heater was replaced with a new one in 2023.

This Jeanneau features a sunpad.

The owner of this diesel Leader 805 has installed LED lighting in the cockpit and in the water, which is an advantage for electrical consumption, safety, and enjoyment. More details and pictures on xboat.uk
