Milgi – Limbo 9.9 A rare synthesis of performance hull genetics and refined shorthanded cruising comfort.
<h3 data-path-to-node="2">Overview</h3>
Milgi represents a unique opportunity to own a legendary racing hull converted into a highly capable, comfortable cruiser. Originally drawn with the sleek lines and swift turn of speed characteristic of the Limbo 9.9, she underwent a comprehensive conversion to full cruising specification in 2013 for her current owner.
Her standout feature is her lifting keel, giving her exceptional versatility: she delivers performance under sail while offering the ability to access shallow anchorages, tidal harbors, and creeks unavailable to fixed-keel yachts in her class. You will not find another Limbo 9.9 finished or equipped quite like Milgi.
She offers total peace of mind to her next owner, backed by a clean 2024 independent marine survey by Ben Sutcliffe.
