Sweden Yachts 45
Design, Peter Norlin/Jens Östman
Samphire II has been continuously maintained to meet high demands. Before we bought her 2012 the wire rigging was changed and thereafter, we have made a lot of upgrades. Among the these we have re-caulked the deck and following are almost new; North Sails Full Batten Mainsail NPC Radian NorDac, North Sails Self-tacking Furling Jib w/ Battens NPC Cross-Cut NorDac, Frigonautica MF80RC Refrigerator, JEFA rudder bearings, Lewmar Ocean hatches, 4 TAB Lithium Iron Phosphate Batteries 12.8 V 200 Ah each, Side Power SE 100/185T-24V-IP bow thruster, LALIZAS ISO-RAFT, 8 Persons, Windlass Anchorlift Mako 1500 24V DC capstan model and chain. She is ready to sail.
(Manufacturer's presentation)
Looks great & performs even better
Whenever we design a new yacht, we always strive to achieve the best possible sailing characteristics for a boat of that particular size. In this way, the Sweden Yachts 45 carries on and embellishes the proud heritage of Sweden Yachts. Every detail, from the shape of the hull to the design of the rig, works together as a harmonious whole, creating an unmatched yacht for serious sailing. Sail and rig handling have been simplified to minimise effort and add more pleasure to the whole sailing experience. The cockpit is ergonomically designed, giving the helmsman a relaxed, well-balanced environment even under really tough conditions in open sea, hard weather sailing.
A yacht with a high feel-good factor
The Sweden Yachts 45 is a fast yacht, very fast. The design team, Peter Norlin and Jens Östman, set out to create the most exciting 45-footer ever built. And owners agree that they have succeeded. “Sailing a Sweden Yachts 45 makes you feel good” is a frequent comment from owners and the lucky yachtsmen who have been invited on board for a test cruise. So, it is no coincidence that the Sweden Yachts 45 was elected “Sailboat of the Year 2000” by the international yachting magazine SAIL.
Every detail counts
When you enter the spacious interior of a Sweden Yachts 45, you will understand the meaning of world-class joinery. Light or slightly darker mahogany, or other fine woods like teak (and in this case cherrywood) are crafted into a complete interior. With inlaid woodwork details accentuating the whole effect. Superior craftsmanship is the keynote throughout. Every piece of wood is oil varnished five times before being fitted together into modules. The floorboards are carefully insulated to eliminate the slightest creaking. Upholstery is specified by the yacht owner, in a Scandinavian design concept based on the principle that “less is more”. The whole atmosphere is one of Nordic Light, the same magic light captured by Scandinavian painters at Skagen, Denmark, at the end of the 19th century. In short, the interior of a Sweden Yachts 45 is tailored to perfection, right down to the last detail.
Putting the helmsman first
The cockpit is designed for maximum efficiency and comfort, both under sail and in harbour. The helm and the winches are positioned for exact operation with minimum effort. Wherever you sit in the cockpit, you are always comfortable. And you are seated on smooth-surfaced, top quality, hand-picked teak from sources who guarantee that the wood is grown under the control of environmental authorities. The whole cockpit layout is the result of constant development work, based on years of sailing experience, making it as near perfect as possible.

Hull Construction and finish

End grain balsa core sandwich using fiberglass mat and rowing on both sides, gives a light, rigid and well insulated hull
Balsa core is used from toe rail to below water line
Solid laminate is used in high stress areas around the keel, mast foot and in the joint between the hull-halves
Bottom reinforcements are longitudinal and transversal solid laminate design.
The hull and deck are bonded together using polyester filler
The toe rail is then bolted through deck and hull flange, using a special sealing material
Volvo Penta original fiberglass bed, moulded integrally with the bottom reinforcement and filled with heavy ballast for maximum stability
The hull is blue and polished in May 2025
The underwater part of the hull was renewed with 5 layers of Gelshield 200 in 2015
The underwater part of hull was painted with two layers of Micron 300 in May 2025<br clear="all">

Deck & Superstructure Construction

End grain balsa core sandwich with moulded fiberglass on both sides
Stress areas where winches and major deck fittings are fixed are reinforced by replacing the balsa core with plywood, or by using backing plates or large diameter washers depending on type of fitting
Teak deck is laid from 12mm first class teak ribs bonded to the deck with polyurethane, and in certain areas secured by stainless steel screws. - New complete caulking done 2016
Teak in the cockpit is laid from 12 mm first class teak ribs bonded to the deck with polyurethane. – New complete caulking done 2020

Keel & Rudder

Ballast keel is lead casting with antimony
Cast-in keel bolts are stainless steel
Lifting lug is fastened to the keel bolts
The balanced spade rudder is moulded in fiberglass, using roving and mat, for maximum strength.
The rudder stock is of stainless steel with two roller bearings – New upper and lower Jefa bearings together with a new gaiter installed 2021

Harmonious living

A Sweden Yachts 45 is primarily built for sailing, but it is also a yacht for luxurious living afloat. Functionality and comfort rule the quarters below deck. The yacht is really spacious, with a roomy saloon for entertaining, three double cabins and two generous head compartments with shower. There is locker and stowage space aplenty, and space prepared for several custom-made glas and drinks cabinets and an ice-maker. The galley itself would shame many a modern apartment for design, equipment and convenience. Everything, in fact, is planned and crafted to bring extra comfort and pleasure to your leisure on board the Sweden Yachts 45.
