<h3>Mechanical Systems:</h3> Bow thruster Webasto AT5000 hot air heating Engine Updates <ul type="disc">
May 2022- Following the delivery trip from Blankenberge, to Crosshaven in May 2022 which took just short of 5 days where the owner motored the entire way home due to a lack of wind, he noticed some wear on the fan belts. When he consulted with an engineer, he recommended to replace the fly wheel with wider wheel and a new fan belt which was completed in 2022.
Engine winterisation and service each year since 2022.
Tachometer not displaying

<h3>Electrical Systems:</h3> 1x 12V/100Ah Engine battery 3x 12V/100Ah Service batteries 1x 12V Bow thruster battery Shore-power with cable Cristec 12v 40 Ah Battery charger
