**Remarks :**

The Nimbus 320 Coupe is a capable and well-built Scandinavian cruiser, valued for its safe sea-keeping and clever design. Aoleus is powered by twin Volvo KAMD43 diesels and benefits from a bow thruster, making her confidence-inspiring under way and in close quarters.

She's had extensive mechanical upgrades in late 2023 including shaft and seal replacement, new engine mounts, exhaust and toilet hoses, and more. The electronics have been updated with a Raymarine Axiom plotter, Simrad autopilot, and radar.

With a practical two-cabin layout, separate shower compartment, and upgraded cockpit covers in 2022, she remains a useful and versatile cruiser for extended or weekend boating.
